THIRTY-SIXTH YEAR LIMA, OHIO, FRIDAY, NOVEMBER 18, 1921 PRICE THREE CENTS

\$200,000 FACTORY SECURED FOR LIMA

GROUND PURCHASE FOR OVERHEAD

First Step in Metcalf-st Crossing Improvement

EMPLOY SECOND WATCHMAN

Will Cost \$260,000; Bonds Are Offered

Immediate purchase of ground adjacent to the long disputed Metcalf-st grade crossing over the L. E. & W. railroad will be made by New York Central officials, it was announced Friday, following a conference between four rail officials, members of the chamber of commerce, county and city attorneys, H. L. Breckenridge, city commissioner-elect and L. A. Larsen, secretary-treasurer of the Lima Locomotive Works.

J. K. Connor, chief engineer of the L. E. & W. and J. B. Cochran, general solicitor of the road, were instructed by General Manager L. S. Emery to take immediate steps toward securing rights to grounds and property that will be used for the overhead bridge approaches.

EMPLOY SECOND WATCHMAN

The Metcalf-st crossing, considered one of the most dangerous in the city, will be reinforced by another watchman to be placed on the north side of the street. One watchman is now stationed on the south side. Nine railroad tracks cross the street and the services of one watchman is not sufficient to provide ample protection to the public, it was said. Emery instructed Cochran to employ another watchman immediately.

The new overhead bridge will cost approximately \$260,000 and will be the first big improvement attempted here by the L. E. & W. since it became a portion of the New York Central Lines, it was announced by Cochran at the meeting at the Lima Club Thursday afternoon.

"This is the first improvement on the program of the L. E. & W.," said he. "The road is broken, gentlemen, and has been forced to borrow \$1,000,000 from the New York Central in order to maintain operation."

"We are anxious to do something on the Metcalf-st project and if there are any persons in Lima who will take up the \$260,000 bonds necessary in order to provide funds for the overhead crossing, we will begin immediate work on construction," Cochran said.

The meeting of railroad officials with chamber of commerce officers, the county prosecutor, city solicitor and member of the new charter commission was called Thursday at the instigation of L. A. Larsen, who has been working for immediate action on the Metcalf-st project for several months.

FACTORY BURNED

Toledo Candy Plant Fire Throws 125 Out of Work

TOLEDO — (By Associated Press) Fire here early this morning practically destroyed a five story brick building occupied by the Harter Candy Company in the downtown district.

Damage is estimated at \$135,000, two-thirds of which is covered by insurance. One hundred and twenty-five employees, mostly girls, were thrown out of work and a holiday stock of candy and chocolates were ruined.

The firm, manufacturers of "sweet-heart chocolates," moved to Toledo in 1916 from Tiffin, Ohio. The cause of the fire is undetermined.

Y. W. C. A. CONFERENCE OPENS AT CINCINNATI

CINCINNATI — Representatives of the Young Women's Christian Association from 47 colleges throughout Ohio and West Virginia will meet in Cincinnati at a three day field study conference, beginning here this afternoon. At this meeting a convention committee to represent students at the bi-annual convention of the national organization at Hot Springs, Ark., next April, is to be appointed.

Miss Irma E. Vogt, dean of women at Ohio University, Athens, Ohio, will make a report this afternoon on the Estes Park conference. Other prominent Ohio and west Virginia educators will address the delegates.

BRITAIN STOPS BUILDING OF WARSHIPS

CIVIC CLUBS TO ADVANCE MONEY

Kiwanis Committee Evolves Plan For \$10 Individual Loans

500 SIGNERS TO BE SOUGHT

Campaign to Start at Meetings Early Next Week

The unemployment relief situation in Lima is believed to have been solved.

After repeated conferences between city officials, the finance committee of council, and city welfare organizations without tangible results, a special committee of two members of the Kiwanis club, A. C. CaJacob and Jeff Morris, Friday announced a plan for underwriting an initial fund of \$5,000 for immediate use of the Social Service Bureau in providing relief.

A meeting of the board of directors of the chamber of commerce was called at noon, Friday, and the plan presented for approval. The chamber of commerce was asked to father the plan with the support of every member.

A special meeting of the board of directors of the Community Council has been called for noon Saturday by J. Kennard Johnson, manager of the chamber of commerce. If the Council approves of the plan, the work of raising \$5,000 will start Monday noon at the Rotary club luncheon, when all members will be asked to sign a blanket note for \$5,000, payable to the Social Service Bureau on demand. The note will not be valid until the 500 signatures have been affixed. Each signer agrees to pay \$10, plus accrued interest on the note.

It is agreed under terms of the note that the first monies received from the Community Chest fund in 1922 shall be applied toward liquidation of the note, together with all interest thereon. The liabilities of each individual signer of the blanket note for \$5,000 will be decreased or entirely cancelled according to the result of the Community Chest fund drive.

With the board of directors of the Lima Chamber of Commerce fathering the Kiwanis movement, and with the approval of the board of directors of the Community Chest Council expected Saturday, it is practically assured the relief situation in Lima will be quickly disposed of, it was asserted by leaders in the plan Friday.

Chairman Rohm, of the council finance committee, has shown where the city is helpless to create additional funds for relief of the unemployed, and the scheme of underwriting the amount necessary to provide for the relief of the unemployed quickly followed the appointment of C. A. CaJacob and Morris at a meeting of Kiwanian directors early this week.

WORDING OF NOTE

A copy of the blanket note drafted by the committee for approval of the board of directors of the chamber of commerce follows: Lima, Ohio, Nov. 1921

"On demand, after date, for value received, we promise to pay to the order of the Social Service Bureau the sum of Five Thousand and no one-hundredths dollars with per cent interest from date.

the first monies received from the Community Chest Drive of 1922 shall be applied to the liquidation of the above note, together with the interest thereon and that our individual liability will be decreased or entirely cancelled according to the result of said Community Chest Drive."

(Signed)

TRUSTEE SUGGESTED
It was suggested by the Kiwanis committee that the blanket note be made payable to an individual as trustee in order that he could endorse the master note and issue the smaller individual notes to the several banks, setting up this note as collateral, endorsing this note and depositing it in escrow with one of the banks.

Joseph T. Kaufman, chairman of the Community Welfare committee, was suggested as the logical person to handle this phase of the plan.

GARY URGES PACT TO AVOID WARS

Treaty Should Accompany Arms Cut, Steel Magnate Says

WILL BE BIG BUSINESS BOOST

Navy Reduction Won't Hurt Steel Trade, He Declares

NEW YORK — (By Associated Press) — Negotiations of a treaty which would prevent future wars was urged, in conjunction with an agreement to limit navies, by Elbert H. Gary, chairman of the board of the United States Steel Corporation, in an address today before the American Iron and Steel Institute, of which he is president. He also belittled the suggestion that armament limitation would reduce the manufacture of steel, saying the thought was unworthy of even a passing notice. Business was improving, he said, but there must be further adjustments.

WAR PREVENTION

"With an agreement for the limitation of capital ships," he said, "it would not seem to be practical to stop with less than a final treaty which will prevent future wars. In addition to what is contemplated by the limitation of armament, there should, with other things, be an understanding that if any international differences arose, no resort to military force should be permitted until after there has been a conference and full discussion by all nations now participating in the deliberations at Washington."

"President Harding and the four selected, able and experienced representatives of this country will energetically and persistently strive for an agreement. They realize their constituents are unconditionally and fervently supporting them in their campaign for peace and limitation of armament, and all this is true of each of the other nations."

He asserted that the international arrangement to be concluded must cover every kind of armament heretofore or hereafter discovered.

GREAT PROSPERITY

The benefits which would be derived by reason of all the nations living under peaceful conditions, as compared with military conflicts, are beyond calculation, he said. "If means for the firm establishment and maintenance of peace can be found and generally accepted, it will mark an epoch of the greatest business prosperity, as well as the largest measure of happiness that the world has ever witnessed. We should be thankful that this conference has been called."

Failure of the conference, he said, was unthinkable. An adverse outcome would be intolerable and those responsible for it would be repudiated and everlastingly condemned.

"No claim for personal or individual advantage not based on the principles of right and justice, in the opinion of the majority, would be entertained," he added.

WON'T CUT MANUFACTURE

He briefly dismissed the suggestion that less steel would be manufactured as a result of armament limitation.

TAKES FIRST STEP IN NAVY CUT

Work on Four Dreadnaughts Halted by London Order

CONFEREES WAIT ON JAPAN

Tokio Envoys Give Views on China's Proposals Tomorrow

The initial step in carrying out proposed limitation of naval armaments, was taken by Great Britain today.

Official announcement was made in London that the British admiralty had ordered construction work on four super-dreadnaughts immediately suspended.

This action gave impetus to sentiment in the United States congress for resolution ordering suspension of the American building program. In this connection, however, it was believed no move would be made to halt the launching of the dreadnaught West Virginia, scheduled for tomorrow at Newport News, Va.

LONDON — (By Associated Press)

The admiralty announced today that it had ordered the cessation of all work on the four battleships of the Hood type.

The shipbuilding firms were notified not to incur any further liabilities on new naval construction until further notice from the admiralty.

These contracts were awarded only two weeks ago. Officials explained that the practical effect of the admiralty's order would be the absolute cessation of all warship work pending the outcome of the Washington conference.

WORK SUSPENDED

GLASGOW — (By Associated Press) — It is officially stated that the contracts awarded the Clyde ship yards for the construction of three warships of the super-Hood type have been suspended.

The steel works are affected by the suspension.

JAP DECISION AWAITED

WASHINGTON — (By Associated Press) — Committee sessions of the conference delegates stood at 3:30 p. m. today to give opportunity for preparation by Japan's delegation of a general presentation of that country's views for settlement of Far Eastern questions at a committee meeting of all the delegations tomorrow.

Following decision of all the delegation heads meeting as a committee on procedure yesterday that a general exchange of views on China's program be had before consideration of specific points as they fall under the divisions of the original agenda, the Japanese delegation asked for the lapse of a day before holding a meeting of the delegations for that purpose.

BRITISH SPEED WORK

Baron Kato has announced Japan's acceptance of China's proposals as the "basis of discussion in committee," saying he had no objection to their acceptance in principle for that purpose.

Meanwhile committees of the British delegation pushed their work today of formulating in detail their position on both the American armament proposal and the Chinese Far Eastern program. Although preparation of the British viewpoint on the armament question, it is stated, will require two or three days yet for completion of the committee's carrying forward its consideration of the American proposal and is reported already to have made some progress.

SUBMARINE QUESTION

It is regarded as certain, however, that no early report from this body can be looked for in view of the task it faces in accommodation of the strong British desire for a cut in the maximum submarine tonnage proposed and the equally firm American view that this maximum should be retained. While this, at present, is the outstanding point of disagreement on the armament question, the committee also must take up modifications to be proposed by Japan permitting her to maintain a "general tonnage slightly greater" than the proposed 60 per cent ratio. Announcement that Japan would ask this was made by Baron Kato here yesterday in a statement in which he said his country also would seek the right to maintaining a type of vessels of "strictly defensive character," a tonnage approximating that of the other two powers.

CAN'T SELL DIAMONDS

BRIGHTON, Eng. — The Bernard Oppenheimer diamond works report \$15,000,000 worth of precious stones on hand, which they have been unable to sell. They have released 200 more workers from the factory.

WED. IN LOVE, BUT THEY LIVE APART

MRS. HERMAN TAPPE

KILLS FATHER TO WIN GIRL

Champlain Explains His Motive For Murdering Parent

SAGINAW, Mich. — (By Associated Press) — Prosecuting Attorney Crane planned today to take Richmond Champlain into court to plead to the charge of murder in connection with the death of his father and stepmother, Mr. and Mrs. Adrian Champlain. Young Champlain was said to have agreed to plead guilty following his confession last night.

A desire to obtain possession of his father's estate, valued at more than \$100,000, so that he might marry Miss Clara A. Humpert, a school teacher of Reese, Mich., and to overcome objections by his parents to his attentions to Miss Humpert, was the motive of the slaying, Champlain said in his confession.

It was Miss Humpert who prevailed upon Champlain to confess. Visiting him for the first time since his arrest Tuesday, her questioning as to his guilt met with a denial and a story of his movements last Monday that she considered false. She then demanded that he tell her the truth and his statement that he shot his parents Monday afternoon and hid the crime, followed.

GUILT ADMITTED

Woman Sentenced for Causing Death of Step-Son

AKRON — (By Associated Press) — Mrs. Hilda Lowe, 29, on trial in common pleas court in connection with the death of her five-year-old stepson, today changed her plea to guilty. She was sentenced to the Marysville reformatory for women for a term from one to twenty years.

Mrs. Lowe was arrested last August on a charge of manslaughter after Ralph Lowe, aged five, had died from injuries alleged to have been received in beatings administered by his stepmother. Pictures of the boy's body, exhibited in court, and descriptions of the bruises brought tears to the eyes of many of the women spectators.

Coroner C. H. Kent had testified that the boy's neck was broken shortly before Mrs. Lowe changed her plea.

SOOT AFIRE BRINGS CALL TO DEPARTMENT

Fire originating from burning soot which dropped down a chimney into an unused fireplace, was the cause of an alarm from the home of Mrs. Luella Clay, 320 N. Baxter-st. at 8 a. m. Friday.

BLANKET CONCERN TO EMPLOY 100

Chamber of Commerce committee "Sells" City to Company

WILL SELECT SITE AT ONCE

Many Other Ohio Organizations Bidding for Industry

Claypoole Brothers' Woolen Blanket Manufacturing company, a \$200,000 concern, will locate its plant in Lima and begin work on manufacture of woolen blankets for the 1922 market as quickly as a building site is selected and a plant erected, it became known Friday.

John E. Galvin, president of the Ohio Steel Foundry company, and George Bayly, both representing the Lima Chamber of Commerce, closed the deal to bring the firm here from Butler, Pa., Thursday.

WILL SELECT SITE

The board of directors of the chamber of commerce at a meeting Friday noon, arranged to bring the Claypooles here Tuesday to look over locations and determine on a factory site. Building progress will begin immediately following selection of a site.

The factory will require 100,000 feet of floor space and will employ 100 men and women at the start, working day and night shifts. Three acres of land will be needed to house the plant.

The Claypoole Woolen Blanket Manufacturing company will incorporate under the Ohio laws at \$200,000, a closed corporation with no stock for sale. It was announced Friday.

The concern was brought to Lima after more than a dozen other Ohio cities had been looked over. A special committee selected by the Lima Chamber of Commerce, composed of George Metheny, John S. Williams, Glenn Webb and S. S. Fishel, to learn what advantages Lima might offer the company outside its natural facilities, chose one of four plans considered, that of offering a free site to the concern.

An exhaustive survey of the city was made by the chamber of commerce. Buildings, sites and the city water supply were investigated. When the data was prepared the board of directors sent Galvin and Bayly to Butler with minute information for the owners of the woolen industry. The result of their conference with the Claypoole brothers was that late Thursday they definitely decided to bring their plant in Lima.

ESTABLISHED BUSINESS

The Claypoole brothers have been in the blanket manufacturing business since 10 years old. They succeeded their father in one of the largest woolen blanket manufacturing industries in the east upon his death in 1914.

Location of the big plant in Lima means another top notch industry added to the city's thriving industrial family thru efforts of the Lima Chamber of Commerce.

This makes two industries added within the last month, the other being the Pressed Metal Manufacturing company, which will come from Waukesha, Wis. It is ready to move now.

WAPAK GIRL WINS

Medals Awarded to Ohio Boys and Girls Clubs

COLUMBUS — (By Associated Press) — Names of the 12 junior state champions in Junior farm and home projects, were announced here today at the final session of boys and girls club week at Ohio State University. Dean Alfred Vinton of the college of agriculture, presented medals to the winners, who are:

- Corn club champion, Frankie Pfaff, 16, Dayton; food club champion, Grace Stanford, 14, Ravenna; poultry club champion, Cady Metz, 16, Wapakoneta; poultry production club champion, Hugh Johnson, 14, Blue Ash, Hamilton-co; clothing club champion, Vertha May Drain, 15, Marietta; pig club champion, Charles Billman, 14, Grove City; pig production champion, Harold Kline, 15, Linden, Ross-co; garden club champion, Alice Rudweg, 17, Strongsville, Cuyahoga-co; beef calf champion, Daine Mulster, 15, Waterford, Washington-co; dairy club champion, Mabel Wilson, 12, Muskingum-co, and sheep club champion, Franklin Routson, 16, McComb, Wood-co.

LIVE IN CHICKEN HOUSE

ALTON, ENG. — Sanitary inspectors have condemned a small building here as unfit for habitation when they found it divided into three compartments. In two lived two families and in the third were chickens.

AUTI-BEER BILL PUT THRU SENATE AFTER FIERCE BATTLE

CUTS OFF SUPPLY FOR THE SICK

Sets Aside Ruling of Former Attorney General Palmer

ALREADY ADOPTED BY HOUSE

Measure Now Goes to President for Signature

WASHINGTON — (By Associated Press)—The final legislative step for the outlawing of beer and malt liquors for medicinal purposes was taken today by the senate.

By a vote of 56 to 22 the senate adopted the conference report on the so-called anti-beer bill and the measure now goes to the president, the house having acted some time ago.

Twelve Republicans and ten Democrats voted against the conference report.

The Republican opponents were Senators Brandegee, Dupont, Edge, Johnson, La Follette, Lodge, McLean, Penrose, Phipps, Shortridge, Wadsworth and Weller. The Democrats were Senators Broussard, Gerry, King, Pomeroy, Ransdell, Shields, Stanley, Underwood, Walsh (Massachusetts) and Watson (Georgia).

Two others, Senators Reed, Democrat, Missouri, and Moses, Republican, New Hampshire, were paired against the bill.

BILL'S SUPPORTERS

Thirty-three Republicans and twenty-three Democrats supported the measure, while it was announced that Senators Farwell, Republican, Oklahoma; Kellogg, Republican, Minnesota; Lenroot, Republican, Wisconsin; McCormick, Republican, Illinois; Sutherland, Republican, West Virginia; and Fletcher, Democrat, Florida, who were absent and paired, favored the bill.

The bill will set aside the ruling by former Attorney General Palmer, who two days before he retired, advised the prohibition enforcement officials that there was nothing in the Volstead act to prohibit the prescription of beer and light wines for medicinal purposes.

PROVISIONS OF BILL

The legislation has been before congress since last June. The house acted on the measure reached by the conference in August, but there followed a bitter controversy in the senate waged by a small but determined group, who contended that the bill struck a fatal blow at personal rights because it permitted search and seizure without warrants.

The first draft of the measure authorized the search of private homes without warrants, but this feature was eliminated in conference.

The bill limits physicians to 100 prescriptions for liquor each three months and specifies that not more than a quart of spirituous or vinous liquor, containing in the aggregate not more than one half pint of alcohol may be prescribed for one person in ten days.

Importation of liquors is barred by the bill until the supply on hand in the United States shall no longer be sufficient to meet the current need for non-beverage uses. It also gives the courts of Hawaii and the Virgin Islands jurisdiction in the enforcement of the national prohibition act as well as the bill passed today.

DAMAGE SUIT OF ROBBER AGAINST VICTIM FAILS; FARMER DIES OF INJURY

WAPAKONETA — (Special) —

Suit of Al Karch against William Weber for \$2,300, an echo of a sensational robbery here March 3 when Guy Tennent and David Whitfield held up a poker party at Weber's place and got \$7,000 in money and jewels, was dismissed in common pleas court. Karch pleaded guilty to hatching the plot and was sentenced to the penitentiary.

He filed suit against Weber asking for recovery of \$1,800, which is alleged to have been lost in the joint, and \$500 exemplary damages. The court dismissed the case when an order to secure costs in the sum of \$50 was ignored.

An injury he suffered a month ago in falling across a piece of timber on his farm, resulted in the death of Charles R. Zink, 71, one mile west of here, Thursday. Complications set in from an injury to his right kidney.

Neal Shaw was elected commander of the American Legion, succeeding Dr. G. B. Faulder.

MRS. M. C. KING DIES IN KANSAS; BURIAL HERE

Mrs. M. C. King, of 719 W. North-st., received word Friday of the death of her sister, Mrs. Kate King, 60, wife of Edward King, of Kansas City. Death occurred Thursday night. The body will be placed in a vault in Kansas City, Saturday afternoon, pending the arrival there of M. C. King, of this city, who is in Los Angeles at present. The body will then be shipped to Lima, for final interment.

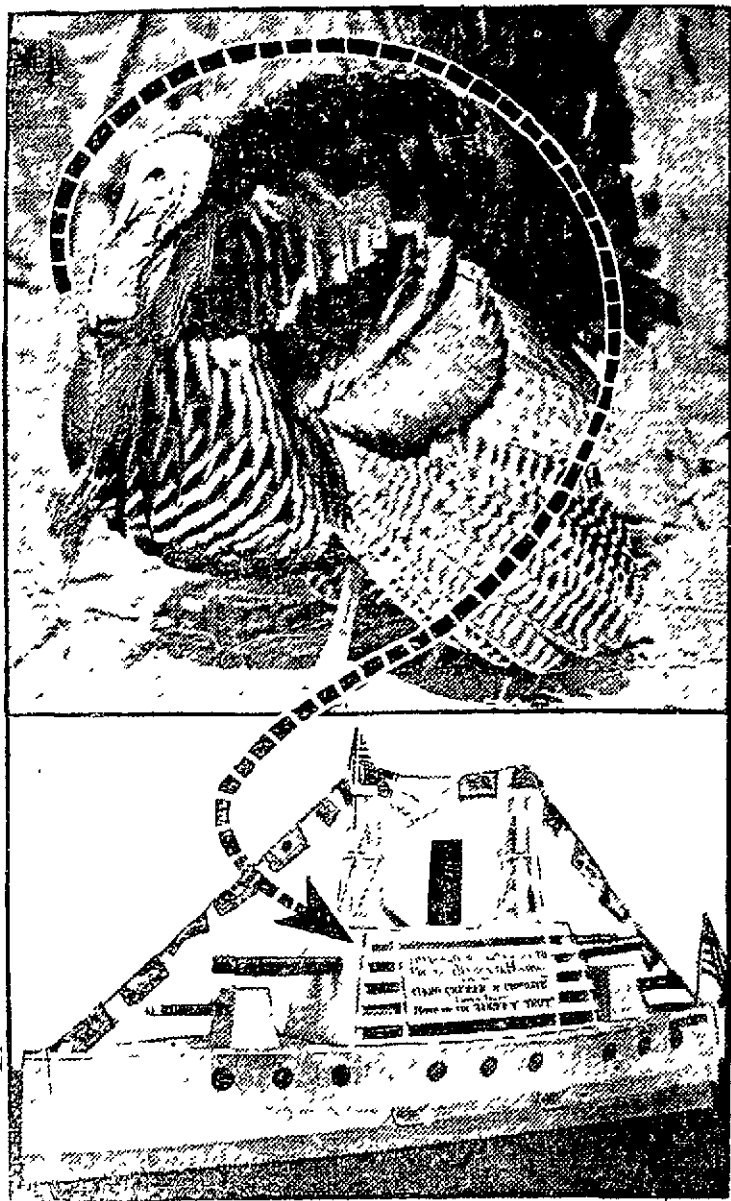

FUNERAL OF LIMA WOMAN AT ROUNDHEAD, SUNDAY

Funeral services for Mrs. Letitia Hobensack, 62, N. Union-st., who died Thursday at 9:20 p. m., will be held Sunday at 2 p. m. at the Methodist church, Roundhead. Interment will be at Roundhead.

Death followed an operation. She was born in Hardin-co. Surviving children are: Earl and Edward Hobensack, both of Chillicothe; Harry, John and Leo Hobensack, Mrs. Oscar Zeits and Miss Pauline Hobensack all of Lima; Eliza Hobensack, Shelby N. C.; Mrs. G. C. Scullen, Rock Valley, Iowa; Mrs. G. L. Unckles, Glendale, Cal.; and Mrs. T. Lament, Roundhead.

WASHINGTON — By a vote of 201 to 178, the house accepted the senate 60 per cent maximum income tax rate, despite the request of President Harding that they compromise at 40 per cent.

DISWINGAMENT CONFERENCE

The crew of this battleship will be the subject of an important conference at the White House Thanksgiving Day. The crew will be completely disarmed by the end of the conference. The battleship was the crate in which the Chamber of Commerce of Cuero, Texas, shipped the gobbler for the presidential dinner.

HARDING MINDS THIS MAN

Dr. John Stephen

LEVELAND — (By NEA Service) — "Open your eyes, wide as still. Don't squint!"

Dr. John Stephen has said that to President Harding.

And to John D. Rockefeller Sr.

And to Alvin T. Herrick, American ambassador to France.

And to M. Charles Bertrand, leading French deputy who, some say, will be France's next premier.

All of these do just what Stephen told them. Because he's a dentist.

Fixing the teeth of the nation is a regular thing with Stephen.

He's probably pulled more teeth out of famous heads than any dentist in the world.

Whenever Harding has a tooth ache he waxes Stephen, who gets on a train and administers relief in the White House.

At the recommendation of President Harding, several members of General Foch's retinue, including Bertrand, waited till they reached Cleveland to have the dental work done.

"These famous people who can command hundreds by a wave of the hand, are the meekest patients imaginable when they get in the dental chair," Stephen says.

"Take President Harding. A dentist couldn't have a better patient. I tell him to do a thing. I know it'll be done. John D. Rockefeller is the same way."

"Why? Because these great men, used to ruling, have self-control and self-discipline. Lack of that makes people squirm and squeal in the chair."

TEMPERATURE DROP COMING

NOVEMBER has broken the record again. Twice within a few days this section has been accorded an awesome electrical display in the heavens, admittedly an unusual occurrence at this season of the year.

Again Thursday night, Jove's bolts were flashed across the sky and springlike temperatures prevailed.

Weeping clouds continue to make underfoot conditions anything but desirable.

A promise of colder conditions tonight and Saturday are expected to remedy this in a measure, at least, although there is forecast of more rain tonight and Saturday, probably.

In the language of the weatherman, the word "probably" plays a big and important part. It's the first line of defense for his department in explaining afterward why a forecast isn't realized.

SMASHUPS OCCUR AT TWO STREET CORNERS; BUGGY IS DEMOLISHED

Louis Harbitt, Robb-ave, was injured when a buggy in which he was riding was crushed in collision with an Overland car driven by Fred Luking, automobile salesman, at Metcalf and W. Market-sts., Thursday night.

The vehicle was demolished and Harbitt was entangled in the wreckage. The horse ran away following the accident. Luking is employed by the Lima Overland company.

A second smashup occurred at corner of N. Main and McKibben-sts., Thursday night, when a car belonging to Herbert Waters, driven by J. Houseworth, skidded into a Snowflake Laundry wagon, hurling it against a truck owned by Howard Gargus. No one was hurt.

TELEPHONE DEVICE ONLY ASSET OF WELCH ESTATE

A patent on a telephone, which Emory J. Welch was working on while in life, is the only asset of value in his estate, according to documents filed in probate court, Wednesday, a short time ago at the Lima Rescue home.

George J. Wall, 610 E. Kirby-st., was named administrator. Edward Moore, Harry T. Gorden and Joseph Louth were appointed administrators. The estate is valued at \$250.

For Colds, Grip or Influenza and as a Preventive, take Laxative BROMO QUININE Tablets. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 50c—Adv.

TELEPHONE RATES ARE BOOSTED

Twelve Per Cent Increase Granted By Utilities Board

ALL PATRONS AFFECTED

New Schedule Probably Effective December 1

Blanket increases in telephone rates amounting to approximately 12 per cent were granted the Lima Telephone & Telegraph company Friday, by the public-utilities commission at Columbus.

It was the ruling of the commission that where good service is given by a company, adequate rates must be allowed.

Application for increases in rates on five classes of service in Lima was made by George H. McNeany, secretary and general manager of the telephone company.

The application was filed with the commission May 1, asking that new rates be allowed, effective July 1. It was alleged that present revenues are insufficient to pay dividends.

The increase authorized by the commission Friday amount to \$6 yearly for residence lines and \$3 a year for residence lines.

INCREASES PER MONTH

A summary of the old and new monthly rates net is as follows:

Business lines: Old rate New rate

Individual \$5.50 \$6.00

Two Party 4.50 5.00

Residence lines:

Individual \$2.50 \$2.75

Two Party 2.00 2.25

Four Party 1.75 2.00

In the application made in May, the telephone company asked for increases of \$1 on business lines, 50 cents on private and two party residence phones, and 25 cents for four party.

Decision had been pending since early in July, when a hearing was held before the commission at Columbus. Council resisted the application, and Solicitor H. E. Garling and Attorney George Quail were present at the hearing to protest.

Following the hearing, experts for the commission appraised the property of the company and examined the books.

Decision of the commission is based on their report, it was stated.

A copy of the commission's ruling has not been received here, a telephone official stated Friday. The date when the new rates will go into effect are not known, but will probably be December 1.

DRAWN LIFE TERM

Champlain Sentenced for Killing Father, Step-Mother

SAGINAW, Mich.—(By Associated Press)—Richard Champlain, 22, who last night confessed he had shot and killed his father and step-mother, Mr. and Mrs. Adrian J. Champlain, was sentenced to life imprisonment following his plea of guilty in circuit court here this afternoon.

Judge Clarence M. Browne, in passing sentence, expressed regret that the Michigan law does not permit capital punishment for high crimes.

LOCAL COMMITTEE IN I. C. & E. FIGHT FOR SERVICE PLANS MEET

The Lima delegation of the Lima-Defiance committees appointed to represent the interest of persons living along the Defiance division of the I. C. & E. will meet in the court house Saturday morning on matters of business developed at an assembly of representatives of towns along the line and the chamber of commerce, Thursday afternoon at 2:30.

Hereafter each committee will hold its own meetings at its own instigation, although general committee sessions will be held in Lima every week until the case is heard before the state public utilities commission in Columbus, December 14, it was decided Thursday.

Legal counsel representing each county, Defiance, Putnam and Allen, will direct the fight against the I. C. & E. in an effort to compel the company to maintain service between Lima and Defiance.

Eugene Lippincott, county prosecutor and H. E. Garling, city solicitor, will represent Allen-co legally in the scrap, it was announced Saturday.

Walter Jackson, Lima attorney, outlined forms of action in a talk before the general committee at its meeting Thursday afternoon.

CONFERENCE MAY END BY DEC. 25

Delays Which Market Paris Meeting Are Not Likely

ARMS PARLEY NOW SECRET

Briand Expected to Make Next Public Address

(BY FRANK H. SIMONDS)

WASHINGTON — (Special) —

"We shall get the Conference out of the trenches by Christmas." This forecast was made to me today by a high government official who had full cognizance of all that has happened and all that is planned to do. This in itself is a final proof that there will be no Far Eastern pronouncement comparable with that on disarmament of last Saturday, and that those who have to handle that complex question are fully satisfied there will be no dangerous tension.

This means in substance, moreover, that the Conference has now become a committee or a series of committees who are to deal with the various questions before the assembly. The statements of the British and Japanese representatives today indicated that there will be modifications in the American programme as presented, but they gave very definite assurance that in the main the acceptance was conceded in advance.

The hardest work that now lies ahead is the preparation of the document which will embody the agreements and given the technical character of the subject, the extraordinary number of details, the drafting of this document promises to be one of the gravest problems ever faced by the makers of a state paper.

DELAYS NOT PROBABLE

With the first two open sessions of the Conference over there is every reason to believe that even the technical work will not suffice to delay the delegates beyond the Christmas holidays or produce the confusion and disappointments of Paris where all the high hopes had faded long before the Treaty of Versailles became a fact.

Summarizing briefly what seems to be in the minds of the American delegation one may believe that Mr. Hughes and his associates have resolved to do the one thing that it was possible to do; to do it as clearly and as promptly as possible, and to make the doing of it the contribution of the Washington Conference to international peace and solidarity.

In their minds the Washington Conference is more than the beginning, an example. A successful Washington Conference is not the solution to all the world problems. It is only the beginning, and a modest beginning, of such a solution. It is an experiment made with faith and confidence. The question of the limitation of naval armaments is perhaps the only question in the world which supplied a chance for a concrete beginning. The agreements on this subject are to be after all the main if not quite the exclusive contribution of the present gathering.

WORK NOW SECRET

With the translation of the Conference into committees, it necessarily goes underground for the moment. Probably the next important public session will be one at which the Prime Minister of France will be asked to make that presentation of the French views of the limitation of naval armaments which is the chief message Mr. Briand brought here. No one believes that after

MRS. HANNA DIES AT WASHINGTON

MRS. MARK HANNA

WASHINGTON—(By Associated Press)—Funeral services for Mrs. Charlotte Augusta Hanna, widow of the late Senator Marcus A. Hanna, of Ohio, who died at her home here last night, will be held in Wade Memorial chapel, Cleveland, at 2 p. m., tomorrow. Interment will be in Lakewood cemetery there.

Mrs. Hanna was stricken with a heart attack yesterday afternoon at five o'clock and died six hours later.

Relatives stated it was their belief that Mrs. Hanna's illness was brought on by the death of her son, Dan R. Hanna, publisher of the Cleveland Leader, about two weeks ago.

His explanation any serious effort will be made to discuss the question of the limitation of land armaments, but it is recognized that his countrymen expect of him such a statement as shall clarify American opinion on French conditions and necessities.

A considerable period of dullness must now ensue, and the surprises are likely to be few. The main lines of the Conference are now known. The adjustment of the views of the foreign countries to the American programme are in the main business which remains to be transacted. (Copyright, 1921)

MINES TIED UP

DENVER — The four mines of the Colorado Fuel and Iron Company in the Fremont-co district were tied up today by a sympathetic strike of miners which followed a 30 per cent wage cut at thirteen mines in the Huerfano and Las Animas-co districts, according to announcement at company headquarters today.

SON IS BORN

Mr. and Mrs. W. H. Brown, 237 S. McDowell-st., announce the birth of a son at St. Rita's hospital, Friday. Mr. Brown is an employee of the Leader Store.

ST. LOUIS — Members of the commission of the Associated General Contractors of America said there is a shortage of 1,200,000 homes in the United States.

NEW YORK — John B. Bogart, former city editor of the New York Sun, died of diabetes. He was 75 years old.

8 DIE IN STORM

Arkansas Family Buried Under Debris of Home

MENA, Ark. — (By Associated Press) — Eight members of the family of R. E. Weems at Weems, Ark., 26 miles south of here, were killed last night when the Weems home collapsed during a violent storm.

Reports of the deaths reached Mena today when a call for eight coffins was received. Details are lacking, due to the fact that all wires to Weems are down, but it is understood little damage was done except on the Weems farm.

35 PLEAD GUILTY

NEW YORK — Thirty-three individuals and 25 corporations, members of the Marble Industry Employers' Association, today pleaded guilty to violating the Donnelly anti-trust law. Supreme Court Justice John F. McAvoy announced that on November 28 he would sentence the defendants, whose operations were revealed by the Lockwood committee's investigation of the building trust last year.

SHORT SHAVINGS

John Reed went hunting with friends and bet them he would get a rabbit with his first three shots. But all he did was to give the rabbits a bad scare. "I found," he says, "they had removed the shot from my shells."

Jim Dugan went to a dentist who put a roll of cotton in his mouth and said "Don't like that out." A moment later the dentist turned

back to him and said, "I thought I told you not to take that out." "I didn't," said Dugan. "I swallowed it."

Jim Grubb, tenor, met a friend who was telling about a restaurant where two sandwiches and two cups of coffee cost \$3.75. Grubb asked where it was. "I just want to know in a general way where it is," he says. "so I can avoid it."

Tom Townsend was on his way home late at night when a night-watchman on his street stopped him and asked, "What's the matter?" "Nothing's the matter," he said, "I was just singing 'All by Myself'."

CELEBRATION FOR TOWN HEROINE

People Will Honor Brave Woman Who Saved Them.

PHONED WARNING OF FLOOD

Medal Presented to Operator for Her Work

HOMER, Neb.—(Special).—Everybody here is talking about the day when Mrs. Mildred Lothrop, telephone operator heroine, will be publicly presented with the Vail medal for heroism and a \$1000 cash award.

The whole town will turn out. Bands will play. Spectators will cheer. And the mayor will give a long speech and tell how Mrs. Lothrop saved the whole population from drowning May 31, 1920, when the cloudburst came down from Wait Hill.

Of course, the mayor will tell the story with frills. But this is how the heroine, drowned mother of six children, tells it:

"That night I was awakened at 2 a. m. by the ringing of the phone bell. A voice told me of the cloudburst and warned me that all the Homer folk would be drowned if I didn't get them to safety."

"I started to stick plugs in the switchboard and tell phone subscribers to rush to the hills and warn their neighbors who didn't have telephones. Most of them just laughed at me."

SON RINGS FIRE BELL
"Then I sent my boy Donald, who's 16, to ring the village fire bell. I knew the people would phone in to ask me where the fire was and that I could warn them. They did."

"And between warning I called the farmers for miles around, asking them to bring food and clothing to Homer, for I knew there'd be need of relief."

"I was so busy I didn't realize how close the flood was getting. 'First thing, I knew a big wave swept into the office, drenching me to the chin. My switchboard went dead. I struggled out into the dark. People were screaming. Drowning animals were floating about. 'I found refuge in the second story of a building, above the water level. I don't know how I got there."

"Then for two hours I helped other women pass out food to the wet and cold men who were doing rescue and relief work."

And for all that, Mrs. Lothrop will receive in a few days \$1000 in cash and a little golden disk, graven with these words:

"For noteworthy public service in the face of increasing personal danger and public disaster, displaying the highest courage, loyalty and devotion in saving human life."

MRS. LATHROP

Mrs. Mildred Lothrop, at Switchboard Thru Which She Saved Many Lives.

SLOAN'S EASES PAIN RELIEVES THE ACHE

TORMENTING, agonizing rheumatic aches are quickly relieved by Sloan's Liniment. Apply it freely and enjoy a comforting sense of warmth. It penetrates without rubbing. Good also for sciatica, lumbago, neuralgia, over-exerted muscles, stiff joints, external aches and pains, back-aches, strains and sprains.

Don't let pain lay you up. Keep Sloan's Liniment handy and at the first sign of an ache or pain, use it, for it certainly does produce results. At all druggists—35c, 70c, \$1.40.

REILY FIGHTS FOR 49TH STAR

Governor Wants Porto Rico to Become State in Union

PUTS NUMBER ON CITIZENS

Button Used in His Campaign Against Independents

SAN JUAN, PORTO RICO — (By Associated Press) — The number 49 has taken a peculiar significance in Porto Rico and Dr. Santiago Yve, former president of the Republican party, has suggested that every citizen of the island wear a button in his lapel with that number on it.

This number has become a symbol since Governor Reily started making an official trip over the island which he expects will include every one of the 77 towns in practically every town where he has spoken he has asserted it was his hope to take the one star from the flag of inde-

pendence advocates and place it on the American flag as the 49th state in the Union. Everywhere this statement has been cheered except by independence advocates.

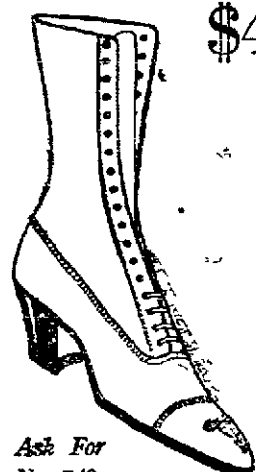

NEW POLICY

Never before has a governor of Porto Rico adopted the policy of Governor Reily in visiting each town and speaking directly to the people. In every speech he has emphasized the loyalty of the vast majority of the people of the island to the United States and he has been severe in his criticism of the leaders of the majority party, the Unionists who have opposed his campaign against the one-star flag and advocate of independence.

In his official visit to Fajardo the home of Antonio R. Barcelo president of the Unionist party, the city was decorated with American flags only, and it was the first city visited that day in which no one-star flags were seen.

Republicans and Socialists, both in favor of Statehood, have greeted the governor in large crowds in all the towns he has visited. Unionists, except officials who have greeted him formally, have to a large degree refused to participate in the celebration planned for the governor's visits.

FREE—Rub-No-More Naphtha Soap for a few days only we will sell 10 bars for 55c and five 2 bars for 25c. **Dorsey's Grocery.**

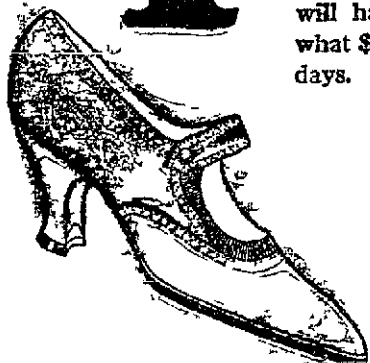

\$4 may be less than you thought of paying—but it is enough!

Ask For No. 549.

Ladies' Gun Metal Walking Boot. Made of specially selected strong but soft uppers on an up-to-date, modern last and pattern. Perforation so vamp and tip is neat and attractive. The strong Oak sole will give long service. Smooth interior. Walking heel with Spring-Step Rubber Heel attached. It's a shoe that will look well as long as you wear it. The price is low as all Newark prices are.

\$4

In NEWARK shoe stores at \$4 we give you more style and value than you can get anywhere else at anything like this price. It is this superior value-giving that has made NEWARK the largest chain stores shoe business in the world. It is the collective buying of over five million people in NEWARK stores that enables us to produce shoes for so very much less and sell them at so very much less profit per pair. Visit a NEWARK store tomorrow before you buy and you certainly will have your eyes opened to what \$4 will buy in shoes these days.

Ask For No. 4758.

A beautiful mid-east effect Brown Kid One Strap Walking Pump with Brown Cross Calmet on vamp and strap. Leather Louis heel. One of the most popular models we have ever offered. "Newark" quality — which means the best — at price low.

High and low heels.

U. S. LEADS WAY FOR BRITAIN

Example Set in Dry Act, Says English Physician

DECLARES LAW IS SUCCESS

Writing Book on His Studies of the Question

(BY MILTON BRONNER)

LONDON — Prohibition in America was not gained by a trick but by the considered opinion of the American people.

In spite of all evasions, it has been a success. It has come to stay.

Great Britain will have to travel far in America's footsteps if she wants to recover from financial embarrassments and hold her own in the struggle for national efficiency.

These are the carefully expressed views of a medical scientist who is himself not a teetotaler—Sir Arthur Newsholme, one of the most distinguished physicians in England.

For years he was principal medical officer to the local government board of England which is something like being physician to the whole nation. For the past two years he has been in America lecturing at Johns Hopkins University on public health administration, and on child welfare for the children's bureau of our United States government.

Writing a book on his researches into the prohibition question in a booklet, "Prohibition in America," shortly to be issued in London.

"Englishmen who base their opinion as to prohibition in America on what they read in their papers," said he, "would be astonished were they made to realize the revolution which

prohibition has made in the United States. The instances of fallacy in the enforcement of the law, convey an entirely erroneous impression.

"It is a majority of the American people themselves who, after elaborate trials and checkings have decided to rule the alcohol-loving minority with a rod of iron.

"Great Britain ere long will be compelled to travel far in American footsteps if she wants to keep up in the race.

It is too early to draw sweeping conclusions from what one sees in the United States, but facts and figures all point to one direction—increasing success for the dry cause.

FEW CAN GET IT

"Altho in many instances state and city authorities have not helped enforce the laws, probably not 10 per cent of former drinkers can now secure alcoholic beverages.

"Altho liquor is smuggled in from Canada, Mexico and other points and altho there is illicit manufacture and home manufacture, yet you have the undoubted fact that all the breweries and distilleries and tens of thousands of saloons are closed.

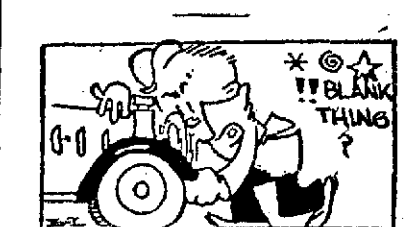

"Of 153,000 physicians in the United States, four out of every five have refused to make applications for permits to prescribe alcohol and in 24 states—half of the union—not a single physician has taken out such a permit.

"I know there are always outcries about infringement of personal liberty. But people forget that compulsion is a necessary element in government.

"Prohibition is not a habit of mind with Americans, but a means to secure liberation from a great slavery; and if the will of the people remains constant, then America will have successfully carried through the boldest and most momentous experiment in a social reform which the world has known."

ANCIENT HERD SOLD
LONDON—An 800-year-old herd of Highland cattle was sold at Oban. It belonged to Captain J. A. R. MacDonald and had been continuously in possession of his family for the last eight centuries.

FAST'S CAR IS CONTRARY THING

An automobile owned by Harley Fast, 1132 Hazel-ave, assistant cashier at the American Bank, isn't possessed of the sort of disposition that Harley carries about with him, always.

Fast's car has a habit of balking, particularly during a rain storm. It's latest case of "nerves" was witnessed in High-st, when the motor went on a strike, while the clouds wept copiously.

You have a right to your own opinion as to Harley's mental state, but you're probably wrong, as Fast never loses his temper.

ITCHY ECZEMA FOR 3 MONTHS

In Pimples On Neck and Shoulders. Cuticura Heals.

"Eczema broke out on my neck and shoulders in the form of small pimples. They were very thick and itched and burned so badly that I could not rest at night. After scratching them they would run and spread and a crust formed over them.

"The trouble lasted about three months. I saw Cuticura Soap and Ointment advertised and sent for a free sample. I bought more and after using one and a half boxes of Cuticura Ointment, with the Cuticura Soap I was completely healed."

(Signed) Mrs. Christina Skaggs, R. R. C., Box 253, Indianapolis, Ind. Use Cuticura for all toilet purposes.

Sample Each Free by Mail Address: Cuticura Laboratories, Dept. H, Malden 98, Mass. Sold everywhere. Cuticura Soap 25c. Cuticura Ointment 50c. Cuticura Soap shaves without razor.

MATRIMONIAL TANGLE STRAIGHTENED BY COURT

NEW PHILADELPHIA — A woman with two husbands found it easy to divorce from a man with two wives.

The action left Nancy J. Dill, of Dennison, husbandless and George W. Dill, of Pittsburgh, planned to return to his second wife.

The matrimonial tangle came when Mrs. Dill decided her husband was dead after he had been missing six years and married Ross Burier. At the same time Dill decided his first wife must be dead and he married again.

While suing Burier for divorce, Mrs. Dill learned her first husband was alive and instituted divorce action against him. The case was contested because it developed Dill was living with his second wife.

The court decided neither principal was guilty of bigamy.

BANKERS IN SOUTH CHEERFUL

Spillane Learns of Improved Conditions at Richmond

COMMERCIAL DEPOSITS GROW

Furniture Business Not Making Rapid Increase

(BY RICHARD SPILLANE)

RICHMOND, Va., Nov. 18—No one can appreciate the magnitude of the tobacco industry unless he comes here. There has been a marvelous expansion—an expansion far beyond the wildest dreams of the most optimistic man in the trade. Men here talk of cigarettes in terms of millions and billions. They talk of cigars in millions and hundreds of millions. They talk of chewing tobacco in a way that makes you wonder where it all goes. It is the same about leaf tobacco and what we designate as smoking tobacco.

Imagine, if you will, 60,000,000,000 cigarettes, well that looks like the total American yearly production in the near future, a big part of which must be credited to Richmond. That is about 1,154,000,000 a week.

All told there are between 12,000 and 15,000 persons employed in the tobacco industry in Richmond. Women predominate. Wages range from \$12 to \$25 a week according to ability. It is said there has been no labor trouble in 40 years.

But tobacco, big as it is in Richmond, is only one of its many industries. There are great flour mills, probably the largest locomotive plant in the south, a very large baking powder factory, a blotting paper industry that is surprisingly big, plants that make paper bags in great volume, fertilizer concerns, wood working establishments and a pretty wide variety of other concerns. There are more desk blotters made in Richmond perhaps and of more kind and colors than anywhere else in America. Special attention is given in this business to the fancies of foreign buyers in the matter of color as you will find in women's dresses. That may explain the large export trade that has been developed.

Bankers, manufacturers and merchants generally in Richmond speak cheerfully. The bankers report improvement. From the extreme uncertainty and doubt of six or eight months ago there has been a gradual turn for the better. Some small country banks in Virginia and the

Carolinas which looked at one time as if they were facing destruction have been helped perceptibly by the changed conditions. The hope is for a gradual improvement. That would be healthy. A sudden one would bring a bad reaction. Commercial deposits are lower but savings deposits have held up remarkably well.

Wholesale merchants say business in the Richmond territory and particularly the Carolinas has been helped decidedly by the rise in the price of cotton.

Blotting paper people and those in the varied paper lines in Richmond say stocks in the hands of distributors are the lowest in years. Business was poor in the spring and early summer but has spruced up decidedly since then and now is quite healthy.

Furniture dealers say their business is hard to understand. In some parts of the country the demand is so heavy that the factories are unable to fill orders and in other parts it is slow. Here in Richmond it is poor yet Richmond dealers who placed orders with furniture makers in July have not had deliveries up to date.

Richmond people like those of Savannah, New Orleans, Memphis and some other points complain that support is not given to water borne traffic to the extent warranted. Richmond is on an arm of the Chesapeake. It dreams of what could be done in a tame way if the facilities of Norfolk, Newport News and Richmond were utilized fully. It was stirred deeply not long ago when the Old Dominion Line stopped its service.

It not only was stirred but it acted. The people established a line in place of the Old Dominion. Now

they're going to fight for business. That's Richmond today. (Copyright, 1921 by Public Ledger Service)

Kingnut

MARGARIN

for people of taste

Kingnut is excellent for enriching candy. It adds to its food value, too, at very little cost.

Warning

Do not be misled by the word oleomargarine on the Kingnut package. Made necessary by the survival of an old law. Kingnut contains no animal fats. It is made from the pure oils of the coconut and peanut, blended with pasteurized milk.

Pure and Palatable

If you could see the spotless kitchens that Kingnut comes from, you would appreciate the scientific care that makes it a pure product in the modern sense of the word. The ingredients are wholesome vegetable oils and pasteurized milk.

It is a delicious spread on rolls, muffins, and toast; it makes biscuits and cakes tender; vegetables are enriched when Kingnut is added. In fact, it improves everything with which it is eaten.

The uniform quality and smooth texture increase the palatability of this wholesome, nutritious food. Besides, Kingnut is a great saving on your food bill. Include a pound with your other groceries today.

Kingnut saves from 15c to 25c a pound

FAR EAST MUDDLE VITAL TO YOU

Job May Depend on Preventing
Asiatic Land-Grabbing

WILL AFFECT U. S. BUSINESS

Struggle For Trade Taking On
New Violence

(BY WM. PHILIP SIMMS.)
(Written expressly for The Lima
News.)

Washington. (Special.)—It may take the gutter off your bread or the shoes off your children's feet unless the arms conference here settles the far Eastern question as well as the status of navies.

It may mean your job, whether you keep it or lose it.

Until now America has paid comparatively little attention to her foreign trade. Her own population has absorbed most of her wares. She has had no need to send drummers abroad to scare up a business she probably could not take care of after she got it.

England, Germany, Belgium, Holland, France and other countries for decades have been less fortunate. They have had to compete bitterly for advantages in the marts of the world—which accounts for most of the land grabbing. Defeat for them in this battle for trade meant closed factories and a business slump and armies of idle and hungry.

Today the struggle for trade is taking on new violence, but with two big differences:

ONE European countries are bankrupt and cannot buy anything. Therefore new markets must be found to keep business from stagnating.

TWO The United States, its production capacity vastly increased by the war, must now enter the lists with the other nations for a share of such foreign trade as there is. Asia, with her 500,000,000 population, is the last great undeveloped market of the world.

Properly encouraged, the Asiatics will become sturdy, prosperous, steady customers.

Should one greedy power or group of powers secure a predominance of influence in that part of the world and permanently close the door, that power or those powers would hog the trade and way rich at the ex-

pense of the world. Business in the United States would remain at a standstill for lack of outlet. Workmen would lose their jobs or suffer reductions of wages. Standards of living would be lowered.

IT'S YOUR AFFAIR. So you are directly interested in a proper settlement of the Far Eastern question. If it is not settled properly, you will be hurt in one way or another, you or yours.

There is only so much legitimate trade in the world. Unless America prevents other nations hogging it and building a fence around it, your share of it—or your concern's share of it—will soon be gone.

Then the only thing to do will be to go to war for it—or sit back and take the consequences.

Secretary of State Hay in 1900 prevented the great powers from gobbling up China and opened the door to the Far East.

Today Secretary of State Hughes must save China and reopen the now closed door to the Orient if he is to save this country from war, your business from dwindling or you from the loss of your job.

MOTHER!

Move Child's Bowels with
"California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup. —Adv

New Tailored and Fur Trimmed Coats

For Women and Misses--Four Special Groups

from the Coat Shop--Second Floor

at \$49.50

Coats in straight-line or flare effects, silk lined to the hem! Each with some engaging fashion feature—the new wide sleeves, trim silk stitchery, or generous fur collars. Rich shades of brown and several tones of blue—in Normandy, Pollyanna and Bolivia

at \$59.50

No better evidence of the correct style and sterling quality presented in this group could be found than this typically smart Coat at the extreme left. It is developed in that soft, new Gerona cloth, with an Australian opossum collar and narrow side panels, touched with fur.

at \$75.00

Both wraps and Coats appear in this group. Many beautiful evoras and panvelaines. One notable model has a collar and tuxedo front of mole. Taupe wolf is lovely with maribou brown panvelaine, as seen in one wrap.

at \$98.50

Blouse back Coats of this group are particularly interesting—lovely, soft marvellous and rich panvelaines, with handsome embroidery or a collar that rolls clear up around one's ears—beaver or squirrel. They are, in short, Coats and Wraps that depart from the usual.

A Special Selling Event

Sport Skirts \$7.95

Just the sort of skirts that are in such demand, right now for sports or general wear.—The quality and tailoring are exceptional at \$7.95.

FARM WOMEN TO BE HAD TO SIT UP ORGANIZE ALL NIGHT

National Body Will be Formed at Atlanta Couldn't Get His Breath and Would Almost Smother

MEETING OPENS MONDAY

Leaders From All Parts of Country to Attend

CHICAGO — (By Associated Press) — The first effort to organize farm women on a national scale, according to headquarters of the American Farm Bureau Federation, will be made at its annual convention in Atlanta November 21-23. Each state farm bureau federation has been asked, for the first time, to send at least one representative farm woman and these will try to work out a plan for affiliating women in farm bureau work.

This program was mapped out recently in Chicago by the Woman's Committee of the American Farm Bureau Federation.

THING IN VIEW
Rural school improvement, community centers, better country churches and social cooperation are some of the things the women have in view.

"Considerable work has been done along these lines by the home bureaus," it is reported at federation headquarters, "but the women who benefit by the home demonstration work have no medium of contact with each other and there is no concentrated effort to bring about any one phase in improvement."

Mrs. Charles Schuttler of Missouri, chairman of the Woman's committee has been given a prominent place on the general convention program. Mrs. Izzetta Brown of West Virginia, will also address the farmers.

LEADERS SKETCHED
These leaders of the farm bureau women briefly sketched are:

Mrs. Schuttler is a member of the executive committee of the Missouri Farm Bureau Federation, a member of the executive committee of her county farm bureau and is a voting director of the American Farm Bureau Federation. She lives on a farm near Farmington, Mo.

Mrs. Brown is manager and owner of a dairy farm near Kingwood, W. Va. For the past year she has been speaking in West Virginia for the agricultural extension department, the home bureaus and the farm bureaus.

Mrs. A. E. Bridgdon, of Rochester, N. Y., is president of the New York Federation of Home Bureaus and a member of the executive committee of the Michigan Farm Bureau Federation. She is also a member of the

"My friends smile sometimes when I begin to talk about Tanlae, but I don't mind it a bit, for I have tried it and know what it will do," said B. F. Faust, 194 Park Ave., Akron, Ohio.

"A few years ago my stomach got out of order and I hardly ever ate a meal without having a severe attack of indigestion afterwards. I had awful smothering spells at times too, and often had to get out of bed and sit up the rest of the night in order to get my breath. I felt drowsy and tired and was barely able to drag myself around."

"I'm not like the same man now. I eat anything I want, sleep like a top and get up in the morning feeling fine and ready for work. Tanlae deserves everything good that I can say about it."

"Tanlae is sold in Lima by Huntley's Drug Store and by leading druggists everywhere."—Adv.

American Home Economics Committee and of the committee of rural health and sanitation of the National Country Life Association.

Mrs. John C. Ketcham of Michigan was for two years a member of the executive committee of the Michigan Farm Bureau Federation. She is also a member of the American Home Economics Committee and of the committee of rural health and sanitation of the National Country Life Association.

Miss Florence E. Ward, head of the home extension division of the State Relations Service of Department of Agriculture, acts in an advisory capacity to the committee.

MONEY PROBLEMS OF WORLD UP

Conference in London to Discuss
Situation Today.

CURRENCY FLOOD HELD ILL

Germany Not to be Represented
at Meet

(By MILTON BRONNER)
LONDON. — While the disarmament conference at Washington is still in session another great international conference will open here today, December 6, to tackle another angle of the money angle — of world problems.
The Sound Currency Association, which has called for a great international monetary conference on Dec. 6 and 7, was formed for the primary purpose of restoring Great Britain to a gold basis in its currency and to cut out the flood of paper money.

Feeling that the absence of a gold standard and the flooding of the markets with paper money was one of the main ailments of the entire world, it has now undertaken to get the experts together to see what can be done about it.

The sessions will be held in the historic Mansion House, the offices of the lord mayor of old London.
The first meeting will be called to order by the lord mayor, and Earl Beauchamp, president of the Sound Currency Association, will be the first chairman. Invitations have been sent out to all the leading nations of the world. Most of them have responded favorably. France, Italy, Greece and Mexico are sending official government delegates. Other countries, notably Norway, Denmark, Sweden, China, Japan, the United States, Austria and Holland are sending delegates who will represent not their governments, but great banking associations.

A significant exception is Germany. The Central Association of German Banks and Banking Industry refused to send delegates because it thought such a conference useless unless there was some guarantee that the decisions of the experts would receive the necessary attention from the various governments.

This has caused a storm of criticism in Germany, and unless something prevents, Germany will be represented by big men, among them

SHE MANAGES OCEAN TRAFFIC

Miss Jane Hendrick, of New York, is an expert in ocean traffic. She will soon start on a tour of inspection of Pacific coast agencies of the French line, of which she is assistant traffic manager.

being Walter Rathenau, recently minister of reconstruction.

Other prominent men expected to attend are Professor Irving Fischer of Yale University, Dr. Ludwig von Mises and Professor Schumpeter of Austria, George Raphael Levy, member of the French Senate; Dr. Gianni of Italy; Miguel Covarrubias, official representative of the Mexican government.

The Secretary of State for India has officially designated H. P. Howard, controller of finance, and C. H. Kitch, financial secretary, to represent India. The International Chamber of Commerce is sending three delegates and the great British National Union of Merchants and Manufacturers has nominated Lord Cowdrey and Lord Emmott, two of the biggest business men of Great Britain.

Besides Professor Fischer, other Americans are expected.

The momentous subjects to be discussed will be the deflation of national currencies; methods designed to rehabilitate currencies and restore the gold basis; international loans, credits, debts, reparations; international exchange and the depreciation of currencies in the money markets of the world; inflation as a factor in the unemployment crisis, which is affecting the whole world.

PROPERTY OWNERS MUST PAY \$198,000 IN TAXES

COLUMBUS. — As a result of the decision Tuesday of the Ohio supreme court holding that the Dow-Aikin liquor tax law is not repealed nor nullified by later prohibition legislation, State Prohibition Commissioner Parker has certified to the state auditor the names of 165 persons who are liable for the tax.

Each person must pay \$1,000 tax and \$200 penalty, making the total to be collected \$198,000.
Hundreds of owners of property where liquor has been sold contrary to law will escape the penalty thru the defense of not having knowledge that liquor was being sold on their property. This is the universal plea in first offense cases, but where a place has been raided more than once, the owner of the property is considered as having "guilty knowledge." His statements to the contrary notwithstanding.

BIRCH ROD PENALTY
SIVA, PH. — "Twelve strokes of the birch" was the penalty inflicted upon Ali Hussain, an Indian lad, when he was found guilty of stealing \$225 from his employer. The money was recovered.

LATE DANDELION CROP WINE MAKING'S BERRIES RIPENING IN NOVEMBER

If the stock of dandelion wine in the cellar is running low, despair not. Material for a fresh batch is waiting to be picked from the lawn.
Various householders about the city report a new crop of the dandelion but now treasured annual is in full bloom in their front yards, Friday.

The lawn at Sheriff Charles Baxter's residence is well sprinkled with yellow blossoms.

Old settlers are of the opinion that the late season which permits

the dandelion to thrive and bloom in late November is a compensation of nature to offset the Volstead Act.

Dandelions are not alone in late flower stage.

Two large clusters of red raspberries, fully ripened were picked Friday morning by Mrs. Charles R. Rode, 850 W. Elm-st. The berries grew on bushes in her garden.

"I will have plenty more," Mrs. Rode declared, "if the weather remains warm."

Have You a Cough?
Here's How to Get Rid of the
Cough and Rebuild the Body

Wheelerburg, Ohio. — "My wife had pneumonia about six years ago and it left her with a dreadful cough. At night she would cough until she was exhausted. She could get no rest or sleep. Her stomach was so bad that she could not retain food. She went down in flesh until she was merely skin and bones. I had tried many doctors and medicines but still she grew worse. At last a neighbor who had relied upon Dr. Pierce's medicines for years, told me about Dr. Pierce's Golden Medical Discovery, and before she had taken all of the first bottle she began to improve. By the time she had the third bottle taken her cough had entirely stopped. She gained in flesh and weighed twenty-nine pounds more than before she took the 'Discovery.' — Edw. Pinson.

Go at once to your neighborhood drug store and get the 'Discovery' in tablets or liquid and you'll be surprised at the way you'll pick up. — Adv.

Pimples

Disfiguring Face Eruptions, Blemishes or Rashes, Scaly, Crusty Skin Irritations Helped Over-right!

If your face, neck or arms are disfigured by Pimples, Eruptions or Rashes, if you suffer from Itchy Eczema or a Scaly Crusty Skin Blemish—start today to overcome this most embarrassing condition by using Gerol Wormwood Balm like a cold cream with a hot steam towel.

Gerol Wormwood Balm is stainless, harmless, pleasant and quickly effective—Stops itching immediately! Kills infection! Soothes, cools, heals and comforts rough, sore, irritated skins. Pimples, Rashes and Facial Eruptions seem to dry right up and disappear leaving your skin soft, white and velvety smooth. Use it nightly according to easy directions inside package—for just one week and let your own mirror tell the story. Money back if not satisfied. At all good druggists.—Adv.

MANY TROOPERS DECAPITATED

Hundreds Put to Death in
Chinese Province

CITY LOOTED THREE TIMES

Atrocities Are Committed by the
Ichang Soldiers

PEKING.—(By Associated Press.)—Hundreds of Southern, or Szechuanese, prisoners have been decapitated by the Northern defenders of Ichang, according to reports brought to Peking by foreigners who have been visiting the Ichang front. The troops who are doing the decapitating are not the soldiers of Wu Pei-fu, but the original garrison of Ichang which has looted the city three times during the last four months. The bodies of their victims are invariably stripped of their clothing and then thrown into the Yangtze, together with their heads.

These atrocities were brought to General Wu Pei-fu's attention on his arrival at Ichang, owing to the fact that some of the original garrison one day mistook a Chinese collector for the Standard Oil Company for a Southern soldier and cut off his head in the usual manner. They did not find out their mistake until they went through their victim's clothing in search of loot and found instead documents proving his identity.

In order to smooth matters over they at once fished the head and the body of the deceased out of the river, sewed them together again and bought the best coffin that they could afford. Corpses and coffin were then carried to the home of the deceased, where profuse apologies were offered to his family for the incident.

The Standard Oil Company, however, is not satisfied with these apologies and has demanded that a solatium be paid the wife and children of the murdered man.

ERIE DETECTIVE IS HELD UP AND ROBBED

Two coal thieves relieved J. R. Rosen, Erie detective of his badge, gun and flashlight, when he surprised them taking coal from a car spotted in the Erie yards, near St. Johns-ave., Thursday night. Rosen saw the men taking coal from a car he was passing on an eastbound freight. After having seized the smaller of the two men, he was commanded to hold up his hands by the taller of the thieves, who was armed.

Rosen complied and was relieved of his badge, revolver and flashlight. His watch and money were not touched. He was told to make himself scarce.

The taller of the coal robbers stated he was a soldier and was taking coal because he was out of work and money.

Rosen notified police of the affair.

TAKES COUNT IN BOUT WITH JAMAICA GINGER

When George Marshall, 58, coal miner from Ft. Wayne, Ind., was fined \$15 for intoxication by Judge Emmett J. Jackson Friday, he ripped open the lining of his vest and produced a twenty, that was "salted" there.

When brought to the station the night before, police found no money on him.

Marshall was arrested by Officer Kelt. He told the court he had been drinking Jamaica ginger, which is now retailing for 40 cents a bottle.

UNION THANKSGIVING SERVICES ARRANGED

Union Thanksgiving services will be held this year in two Lima churches, under the auspices of the Lima Ministerial association, on November 24.

Grace Methodist church, on the south side and the First Congregational church, S. Elizabeth-st., have been designated as places where these services will be held. The time is set for Thanksgiving evening at 7 o'clock.

In both church the offering will be donated to relief in the near east.

MRS. GREIDING SUCCEUMBS TO DEATH AT 80 YEARS

Mrs. Anna Greiding, 80, died at her home, 726 N. Elizabeth-st., Thursday afternoon, after an illness of four months from general debility. She was born in March, 1841, in Richland-co.

Six children survive. They are: Mrs. W. W. Huber, Mrs. Noah Diller and L. T. Greiding, all of Bluffton; Mrs. William Rhoda, Lima, and the Misses Amelia and Clara Greiding, residing at the parental home.

Funeral arrangements have not been completed.

MAY FINISH TAX BILL TOMORROW

Conferees Resume Negotiations
on the Measure

WASHINGTON.—(By Associated Press.)—The house having settled the big issue in the tax revision bill by accepting a vote of 201 to 173 the senate 50 per cent maximum income surtax rate amendment, senate and house conferees resumed their negotiations today with a view to reaching an agreement on the bill by tomorrow night.

The margin by which the house approved the senate surtax rate—25 per cent—was even larger than had been expected by the proponents of the senate amendment. One hundred and six Democrats, 54 Republicans and the one Socialist member voted for the 50 per cent rate, while 170 Republicans and three Democrats opposed. The vote was taken late yesterday after the house had heard read a letter from President Harding to Chairman Fordney of the ways and means committee, suggesting a compromise at a forty per cent rate. The president said he still believed that the original house figure of 32 per cent would be more just and return a greater revenue to the public treasury than would even a forty per cent rate.

The more important issues in the tax bill now awaiting settlement are the corporation income tax rate, fixed by the house at 12-1-2 per cent and by the senate at 15 per cent, and the senate proposal to tax gifts of property by persons, the purpose being to prevent evasion of taxes by the wealthy.

Other items in the bill still in con-

troversy include the repeal of the \$2,000 exemption for corporations except in the case of corporations having a capital stock of \$25,000 or less; increased inheritance taxes and the treatment of insurance companies other than life.

MAN WITH LEG BROKEN SAYS HE WAS PUSHED OFF TRAIN BY CONDUCTOR

Martin Ford, 40, giving his residence as Rochester, N. Y., was found by section workers lying along the Pennsylvania railroad tracks, half a mile beyond East town, Thursday shortly after two o'clock.

Ford was removed to the City hospital, where an examination developed he had received no broken bones. To ambulance drivers he declared he was beating his way west. He said he engaged in a fight with the conductor of a freight train and that the conductor called the brakeman and after an argument, they pushed him from the train.

Ford said he laid along the right-of-way from 10 a. m. until found by the section crew. His body is badly bruised.

SLIGHT HURTS FOR TWO IN FALLING ELEVATOR

Trapped in a falling elevator, James W. Rush, 137 S. Pine-st and W. L. Geyer, St. Johns-ave, were slightly injured Thursday afternoon, when the freight lift at Neuman-Kettler furniture company, 232 N. Main, crashed from the third floor to the basement.

The concussion of the fall shook the two up generally and Rush sustained a sprained spine and back. His companion lacerated his right hand in attempting to stop the descent of the lift, by catching the rope, which controls it.

Special for Retail Grocers and Butchers

Let us demonstrate the New Massey Patented Lighting device for your non-electrical fan or cylinder computing scale, absolutely free.

This device (selling for \$10 cash or time) will make your chart brighter than a regular electrical scale. Make more accurate readings where graduations at high prices per pound are very close together. Quicker service and stop costly errors and overweight.

Don't miss this opportunity to secure a demonstration Monday or Tuesday of a device that will add from \$175 to \$275 exchange value to your scale.

Write J. S. Massey, Box 75, care Lima News. Local representatives wanted.

HOLDUP IS FOILED

St. Marys Man Steps on Gas,
Speeds From Robber

An unidentified man, accompanied by a woman, made a futile attempt to hold up and rob T. L. Harvey, of St. Marys, as he was driving across the Erie viaduct on the Spencer-ville-rd at midnight Thursday. Haney escaped by stepping on the gas and speeding past the highwaymen.

Haney was going south and was met at the top of the overheard by the highwayman, who had a large touring car, Haney said. A woman was seated in the car.

The man stood in the center of the viaduct, motioned and called to Haney to stop. He was armed with a revolver, Haney believes, but did not shoot.

The lights of Haney's car caused the figure of the alleged robber to stand out plainly against the skyline. Believing that a holdup was to be attempted, Haney stepped on the gas and sent his car racing up the incline at top speed. The man was forced to spring aside as he whizzed past.

Haney reported the affair to police early Friday morning. He was unable to describe the man accurately.

FUR COAT FARM IS BOOMING

Each "Employee" Guarded—For
He's Worth Thousands

WINNIPEG.—(By NEA Service)—Listen, girls! Five hundred potential fur coats are walking around up here.

They're silver black foxes, being reared for their fur on the Canada West Silver Black Fox ranch near here.

And here's a tip: The ranch proprietors say their fox farming has been so successful that before long fur will be so cheap that everybody will have fur coats!

Meanwhile here's how the ranchers treat the fur coats while they're still alive:

Every fox family has two houses to live in, despite the house shortage. That's because they like to move often. The two houses are set in an individual pen, 25 to 40 feet.

And eat! Their menu is changed every day. For breakfast they have shredded wheat or oatmeal or rice with cream. For dinner pigeons or chickens or eggs.

And if they hanker for their old wild life, the keepers give them a bit of raw meat with warm blood on it. Of a little meat with the hide on to keep them from biting off the tips of their tails, as they do sometimes.

And every fox has an individual

Found--A Real Hair Saver and Beautifier

Parisian Sage Quickly Makes Paded,
Dry, Wavy Hair Lustrous—Soft,
Pluffy, and Abundant.

If your hair is getting thin or you are troubled with dandruff or itching scalp, use Parisian Sage daily for a week, and you will surely be surprised to see how quickly it stops falling hair and removes every sign of dandruff and itching scalp.

"Before going to bed I rub a little Parisian Sage into my scalp," says a woman whose hair is greatly admired. "This keeps my hair from being dry, faded or scraggly, helps it to retain its natural color and beauty and makes it easy to arrange attractively."

Beautiful soft, glossy, healthy hair, and lots of it, is a simple matter for those who use Parisian Sage. This harmless, delightfully perfumed and non-greasy invigorator is sold by Thompson's Drug Stores and at all good drug and toilet counters. Be sure you get the genuine Parisian Sage (Gibson's) as that has the money back guarantee printed on every bottle. Adv.

set of dishes and drinking utensils. They're washed after every meal or the fox refuses to eat from them.

The same men are sent around to feed the foxes every day, because they're afraid of strangers. Visitors are rarely admitted.

A lot of fuss to make over a bunch of foxes, isn't it? But—

There isn't a fox on the farm who couldn't skin himself to the tune of \$1000 or more. Sometimes a single animal sells for \$12,000. One of cubs at the ranch is worth 000.

Right here, girls, let the proprietors tell you how to avoid being bunked in buying fur coats. They say: "The silver in the fur isn't black. All the hairs are black tip, then a band of silver, then to the roots. This silver band is impossible."

STEAMER SINKS IN OHIO RIVER.

Thirty Persons, Crew and Passengers Are Rescued

SHIP HITS DAM PROJECTION

Vessel and Cargo Total Loss—State News in Brief

CINCINNATI — (By Associated Press) — Thirty persons, including two women passengers, were saved from the muddy waters of the rapid-rising Ohio river in a spectacular rescue last night when the steamer *Chilo*, carrying a heavy cargo of freight up stream from Cincinnati, struck up projection on the top of Government Dam No. 35, opposite New Richmond, Ohio, and sank a few minutes later in 30 feet of water.

Within a few minutes after the crash had torn a huge hole in the steamer's hull, all the members of

the crew and the passengers were safe in the steamer's two life boats, or in the boats sent out from the river bank.

First reports received in New Richmond and in Cincinnati were that eight persons had lost their lives, but a careful check of the crew and the passengers later showed that all on the boat were accounted for. The boat itself, valued at \$15,000 and its cargo, which was one of the largest the boat had carried in recent months, were a total loss.

The steamer, in charge of Captain Jack Ward of Gallipolis, left Cincinnati late yesterday for Charleston, W. Va., and way points.

WILL WIRELESS GAME COLUMBUS — The department of electrical engineering at Ohio State University will send out by wireless play by play reports on the Ohio State-Illinois game, Saturday.

BRAKEMAN KILLED — SPRINGFIELD — William T. Hutchison, 55, brakeman on the D. T. & L. railroad, was killed at Gregg Station.

BAZAAR AND BAKE SALE — Sat. Nov. 19, at Hoover & Bond Store, by First Christian church.

PASTOR OF FOUR STATES UNITED IN THEIR PRAISE

Four Ministers, Though From Different Parts of the Country, Have the Same Attitude With Regard to Nerv-Worth. They Write Letters Recommending It, and These Letters Give Evidence.

Nerv-Worth gives real results and is a real medicine. It does not act as a mere stimulant, nor depends upon alcoholic stimulation to produce results. The ministers whose letters are reproduced below have tested Nerv-Worth, and found that it is really a preparation of highest merit, and because they know that it gives results, and has real medicinal value, they recommend it to others. Nothing could be more convincing than a group of statements from gentlemen of the cloth. Read what they say:

Rev. Mr. Tate, Pontiac Ave., Dayton, Ohio.
"For five years I was in a very nervous condition," said Rev. Tate. "I couldn't find any relief, it seemed, until I took a bottle of Nerv-Worth. I didn't have any nerve force to digest my food. I could eat only a few things. I was advised by my doctors not to eat any cold lunches. My stomach and my digestion were in fine condition. I have no more bloating, my circulation is good and there is no numbness and cold feeling in my legs and hands. I am feeling fine, and have regained my health and vigor. Nerv-Worth changed everything."

Rev. H. Malone, Meadville, Pa.
"I was in a terrible run-down condition, had no appetite, and couldn't sleep. I was very nervous, and my stomach was bad. Gas would form and cause a

TONS OF BEET SUGAR PULP DESTROYED BY BLAZE

TOLEDO — Several hundred tons of dried beet sugar pulp was destroyed, or heavily damaged by water in a fire which gutted the warehouse of the Larrowe Milling Company on the Dixie Highway, near Rossford, late last night.

The pulp was part of the output of the Continental Sugar Company's plant at Rossford and was stored for use by dairymen.

Spontaneous combustion is believed to have been the cause of the fire. Damage is estimated at \$50,000.

TOWN HAS NO JAIL, NO CHURCHES

Have no Need for Preachers
Iowa Mayor Says

WANT TO BE LET ALONE

People Spend Sundays at Shows
and Dances

DAVENPORT, Ia. — (By Associated Press) — There are two in-
stances that Walcott, Iowa, the
richest town per capita in Iowa,
pines itself in not possessing. These
are churches and jails.

In its religious beliefs, Walcott is
unique. For more than 50 years the
town has been without churches. It
once had a jail, but like its only
church, established 65 years ago, it
was put in the discard. While the
jail building stands, there is no ves-
sel of a church edifice. But there
are no locks to the jail and its hinges
have rotted off. It is never used.

LAW ABIDING PEOPLE
"We are free thinkers and be-
lieve in free American citizenship
seven days a week. We do not need
preachers to dictate to us. We are
better off without them," states
Mayor Strohbein in expressing Wal-
cott's lack of churches.

Mayor Strohbein states that
while any denomination has the
privilege of establishing a church in
Walcott, the people simply will not
patronize them. They would have
empty pews.

"We are getting along as we are
—much better than with churches.
We like to be let alone. There is
no more peaceful or law abiding
town in the whole United States than
Walcott. Why should we want
churches. They bring strife and dis-
cussion—we want peace and quiet-
ude," commented the town's popu-
lar mayor.

It's no secret how Walcott resi-
dents spend their Sabbath. "Shows
and dances are our principal Sun-
day amusements," says Mayor Stroh-
bein. "Then in summer we enjoy
baseball and automobile riding."

In case of weddings, most of the
couples come to Davenport and look
up a justice. In very rare instances
a minister of the gospel is called.
Most of the funerals in the town
are conducted by Johannes Kroeger,
who delivers the oration in either
German or English, as the mourn-
ers desire. Mr. Kroeger possesses
no church affiliations or religious
beliefs. In other words he is a pas-
tor without a creed. Baptisms are
unknown in the town.

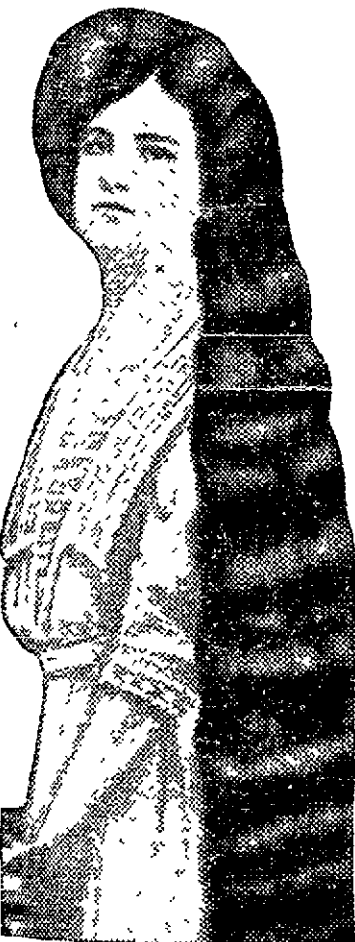

In a business and commercial way
Walcott is a thriving town. It has
two banks with combined deposits
of over \$1,500,000. This is a re-
markable showing when it is con-
sidered that the population of the
town is but 384. It has a consoli-
dated school second to none in this
part of the state.

Recently the citizens erected
a fine public auditorium. Here
chauntiques and musical entertain-
ments are held on weekdays, and
dances on Sundays.

"DANDERINE"

Grows Thick, Heavy Hair

35-cent Bottle Ends all Dandruff,
Stops Hair Coming Out

Ten minutes after using Danderine
you can not find a single trace
of dandruff or falling hair and
four scalp will not itch, but what
will please you most will be after a
few weeks' use, when you see new
hair, fine and downy at first — yes
— but really new hair — growing
a — over the scalp. Danderine is to
the hair what fresh showers of rain
and sunshine are to vegetation. It
sends roots to the roots, invigorates
and strengthens them, helping the
hair to grow long, strong and
lustrous. One application of
Danderine makes thin, lifeless,
colorless hair look youthfuly
bright, lustrous, and just twice as
abundant. — Adv.

OPEN LETTERS

To the Public

FRIENDS: You will be asked tomorrow to buy tags on the streets of my city to furnish funds for building up the material in my public library. Scores of club women and girls will be out all day for the purpose of selling tags.

I want to take this opportunity to recommend the proposition to you. Any money you spend for the tags will be for the betterment of my city. It is needed and I hope you will be generous in your subscription.

My library now is on the same financial basis it was several years ago. Its income is only \$3,500 a year and out of this all expenses must be paid, including four salaries and all upkeep of the building.

That the library is a popular institution is shown by the circulation figures for the last two years. In 1920, 64,805 books were issued, an increase of 15,626 over the previous year. Of this number 18,823 were from the juvenile department.

The money subscribed tomorrow will be used in building up the children's department, which, like the rest of the library, has had very few, if any books, recently because of the lack of funds.

Nothing assists in the education of children like the access to books needed in their work. Any assistance you give will be money well spent.

LIMA BEANE.

O O O O O

To City Hall

GENTLEMEN: My attention has been called to a number of serious accidents at intersections of streets known as "dead ends." One of these occurred Wednesday night at Washington and High-sts. I am informed that after the accident there, two other automobiles ran upon the curbing on the south side of the street, the drivers not being able to see that the street did not continue across High-st.

I have noticed that the glare of street lights make it nigh impossible for drivers to see beyond and unless they are acquainted with the various intersections, accidents are likely to happen.

Wouldn't it be possible to mark these "dead ends" in some way to protect drivers?

LIMA BEANE.

O O O O O

To Rev. Kirk O'Ferrall

MY DEAR PAT: You had me frightened a few days ago, when announcement was made that you had under consideration a call to the pastorate of St. Mark's church in Grand Rapids, Mich. I feared you would accept.

I am right glad you have decided to remain a resident of my city, as pastor of Christ Church Episcopal and that you will continue a part and parcel of the civic life of my city.

LIMA BEANE.

O O O O O

To Hunters

DEAR NIMRODS: That no one has been seriously injured in Lima territory since the opening of the hunting season, as a result of careless handling of firearms, is evidence that those who have been affield in quest of rabbits and other game permitted by law to be killed, have been exercising caution.

There is no necessity for injuries being inflicted or fatal accidents occurring to hunters if a few fundamental things are observed in handling a gun. Reports show that three hunters have been killed and eleven injured in Ohio this week, accidentally.

Let's keep Allen-co out of the list.

LIMA BEANE.

To The Chamber of Commerce

MY FRIENDS: Appreciation on behalf of my citizens is extended to you herein for your efforts in making assured that a new industry is coming to my city—the Pressed Metal Manufacturing company of Waukesha, Wisconsin, for the employment of a goodly number of persons and to add to the industrial output of my city.

Depression which has held the country in its grip for some months past is being dispelled, I am pleased to say and it is encouraging to know that your organization is on the job in seeking new concerns to add to my already large factory family.

Thru your president, R. B. Dunn, my thanks are expressed to all of you Lima Boosters.

LIMA BEANE.

O O O O O

To City Commissioners

DEAR BOYS: The electorate of my city has conferred upon you and each of you a high honor in elevating you to positions as members of the first city commission. You will readily understand that your task will in no wise be a snap and that you will be confronted with all sorts of problems, but there is one thing I'm making bold to call to your attention, with expression of the hope that you will take heed.

Declaration by one of your board in favor of "open covenants openly arrived at," is commendable and I trust that the sentiment will be taken in a serious manner by every member of the commission. There is nothing that gives better public satisfaction than a plan that opens the books of public business to the public, all the time.

When that policy is adhered to there can be little danger of suspicion or charges being made by those who are not acquainted with the details of what public officials are doing. Keep the public posted and avoid pitfalls.

LIMA BEANE.

O O O O O

To William H. Leete

DEAR MR. LEETE: I am taking the liberty of adding my congratulations to those of the members of the Allen-co Bar association extended to you on the occasion of having completed a half century in the practice of law in the courts.

It was a fitting thing the members of the bar association did in making you the honor guest at a dinner event. I sincerely trust that you will continue for many years in the practice of your profession.

LIMA BEANE.

O O O O O

To Householders

MY FRIENDS: The first snow has come and gone. I noticed that a great deal of it did not disappear from your walks until Old Sol did the work. Isn't that a bad way to start?

These days, it is hard to laugh at your own expense.

Gasoline is great to clean; it leaves the pocketbook so lean.

TROUBLES

(BY DR. WM. E. BARTON)

We all have troubles. Some of us are not as rich as we should like to be, and others are much more poor than they want to be. Some of us have poor health and some have unhappy surroundings.

Some of us lack friends, and others have friends whom they would willingly lose. And most of us are not at liberty to tell our troubles, and we wish that the rest were not.

"Tell your troubles to a policeman," So runs the selfish legend which I have seen framed and hung above the desk of a busy man. "We have troubles of our own." So reads another placard. Not many people want to be burdened by hearing the troubles of others.

It falls to me to hear a great many people tell their troubles. It is a burden and a heart-ache. Often there is nothing that I can do to help. But now and then there is something to be said or done that helps. Then I am glad to have been in a position where people felt at liberty to come.

My own troubles are a small burden to me compared with those I hear for others. I have a long ex-

perience in this matter. Sometimes there are troubles which one must tell and ought to tell. But many of our troubles grow greater as we talk about them. The more often we tell of them the worse they seem to be.

David Hartum, in his homely fashion, said that "A reasonable amount of fleas is good for a dog; it keeps him from thinking too much about being a dog." A reasonable amount of trouble is not bad but good for a man; it keeps him from thinking too much about himself and his own comfort.

We are not here just to be comfortable. We are here to be strong and brave and true. We can make our troubles a means of strength of character. We can discipline ourselves to rise above them and to think of others rather than of ourselves.

A large proportion of our troubles are home-made. And very many of them can be cured at home. If you cannot dismiss all your troubles, try to conquer them by courage and resolution and self-forgetfulness. Maybe you will see the time when you will be glad that you had some of these same troubles.

YOU AND I : COMMENT ON TOPICS OF INTEREST TO ALL

MACHINES

Sugar is now being correctly weighed and sealed in dust proof packages, by machinery, in a 25th of the time required to "put it up" by hand, says the American Sugar Bulletin.

Machines thus take the place of human labor—leasing, for other useful work, those who would otherwise be employed in packaging sugar by hand. Human labor really loses nothing. It gains a greater variety of commodities, raising the standard of living.

MEAT

With choice pork loins wholesaling at 15 to 20 cents a pound, Armour & Co. points out that the price of fresh pork products has dropped to the lowest since 1912. One year has out the wholesale price in two.

Average wholesale price of carcass beef was 12 cents a pound in 1914, while "at the end of last month it was between 11½ and 12 cents," says the Institute of American Meat Packers.

Tell this to your butcher. If he needs the information.

PRICE

A plate of corn cakes in a city restaurant costs as much as a farmer is getting for a whole bushel of corn, says Capper's Weekly. And it takes 2 carloads of corn to pay for a tractor and a plow of the cheapest make.

COMPLEX

The telephone wires in United States would make 100 unbroken telephone lines from the earth to the moon.

Over those wires, Americans daily carry on 33,000,000 phone conversations. Yet it is only 45 years since the telephone was invented.

Our civilization is becoming terrifically complex. Is the machine getting so intricate that we cannot

make it function? Often it seems so. Maybe the real cure for our economic troubles is a return to the simple life.

SLANG

Army slang phrases are being gathered up, for permanent records in the British Imperial War Museum. Odd soldier expressions, such as "blighty" and "gone west" will be preserved for future scientists who will study our period and analyze its mob insanity.

Wise move! Common notion is that slang of today becomes correct language of tomorrow. Sometimes. Not always. "Skidoo," once mad-dogging popular, is dead. Writings of George Ade, slang king, will be studied in future colleges, with explanatory footnotes, as weird phenomena of expression in our time.

POEMS YOU WILL ENJOY

—By Burton Brakley—

THE DISARMAMENT CONFERENCE

A MERICA spoke, in the words of Hughes and over the planet there flashed the news;

"A great land speaks in a strong man's voice and 'peace' is the magic word."

It plumbed the depths of the world's desires and back there came, on the ringing wires

A mighty response from the ends of earth—a message that must be heard.

F OR Hughes had taken a rosy dream and wrought it into a working scheme,

And laid his cards on the table there in the light of the open day.

And whether or not the others willed, the hearts of men with a hope were thrilled;

Yes, out of the murk and slime of war America showed the way.

A ND thus, when the conference met again, that group of eminent gentlemen,

Blinking a bit in the light they faced—the light of a whole world's gaze,

Rose in turn to their feet and spoke for their nations' simple and common folk,

Pledging their faith to the newer code, the code of the coming days

B ALFOUR, hesitant yet urbane, made the purpose of England plain.

To help in keeping a world at peace and making a dream come true.

Kato, admiral of Japan, a slim, cadaverous little man,

Promised his country's earnest aid in seeing the vision thru

S CHANZER, Italy's delegate, in phrases ample but adequate,

Spoke of the plan as a forward step, a stride in the world's advance.

While Briand, orator skilled and splendid, whose voice is zephyr and tempest blended,

Intoned a passionate hymn to peace as the hope and dream of France.

A ND those who had sneered and jeered and said "Idealism" was crushed and dead,

Who came to scoff at the conference—those cynics remained, and prayed:

For a nation said, "We have wealth and might, yet here we stand in the whole world's sight

To doff our arms in the cause of peace, dauntless and unafraid"

HEALTH TALKS

Common Sense Ways to Keep Well

—OUTDOOR SLEEP—

I T IS an unfortunate condition of our present advanced state civilization that few people live out-of-doors all the time, many are so situated as to be unable to secure ventilation, grand that they desire it.

But if we are, more or less, less as to our condition during the day time, we can at least govern control of air supply at night, spend practically one-third of our lives in bed.

Those who have slept out-of-doors a length of time are unanimous in their testimony that the best ventilated sleeping room is far inferior in healthfulness to an outdoor sleeping porch, open tent or wind tent.

For generations outdoor sleeping has occasionally been used as health measure in certain favored climates and seasons. But only the last two decades has it been used in ordinary climates and all the year round. Outdoor sleeping next to generally adopted as treatment of tuberculosis, and later for nervous troubles and other diseases, including pneumonia.

Of late the value of outdoor sleeping for well persons of all classes and ages has come to be widely recognized. It increases the power to resist disease and greatly promotes physical vigor, endurance and working power.

It is important that an outdoor sleeping place be protected from wind on two or—in very windy places—three sides. But of course sleeping out does not reach its maximum efficiency if free currents of air are not secured.

In cold weather a thick mattress or two mattresses, should be used, not only what is over the sleeper but also what is under that man.

The body should be warmly clothed and the head and neck protected by a warm cap or helmet. To prevent the entrance of cold air under the head, a cloth, one or more blankets might be extended at least to the beyond the head, with a central slit for the head.

Sheets should be well warmed in the winter-time before being used. This can be done easily with a hot water bag, flatiron or soapstone blankets next to the skin are most hygienic.

—Letters to the Editor—

THE PRACTICE OF TIPPING

The Lima News welcomes letters from readers for publication. They should be brief and to the point. They must be signed by the writer to insure good faith. But names will not be used if the authors so desire. This newspaper, by its publication of these letters, does not necessarily concur with the authors in their views and the letters do not express the paper's policy.

Editor, The Lima News.

I have been a waiter in some of the best hotels and cafes in western cities.

I have worked in places where I had to give my little salary to 43¢ head waiter in order to retain my station, depending entirely on tips for my living. I've also spent a number of years as commercial salesman, and have handed out many a tip. I always am to stop at the best hotels in cities the size of Lima and smaller and pay the top prices, and then have been compelled to help pay the salaries of the help if I wanted to get any kind of service.

A little example: A bell boy meets you at the door takes your grips. After you register he takes you to the room turns on the light and opens the window. That is a tip if you want to feel your are a welcome guest. Water in the room is seldom fit to drink and before you get thru with your daily reports you call the office for a pitcher of water. If you tip the first boy he doesn't come back for he has got his and if you didn't you nearly choke before you get the water. But if you did there is a strange face appears and you have to tip him. If you were so unfortunate as to have to call a dozen times there would be a different boy each time, if there were that many on duty.

In the morning you go down to

settle your bill which may run from two dollars up and service is supposed to be included, but your tips have possibly been near as much.

Would it not be best for even concern to pay living wages on charge accordingly, thus do away with tipping.

J. H. A.

FAVORS TIPPING

Editor, The Lima News:

My idea of public tipping is as follows: "Efficiency" the climax to all endeavor. That which many aspire to and have not the opportunity to a gain.

Extra money to one in public service usually is accepted and appreciated as a compliment of the efficiency of service. General given by those who appreciate good public service and can well afford the pleasure or giving.

FRED REEDY,
122 E. Market-st.

COMPLAINT ON STORES

Editor, The Lima News:

May I ask thru the columns of your paper why the merchants of Lima do not close on Christmas Eve?

It is without a doubt the holiest night of the whole year, the night that one wants to be in the own home, the one night that business is dearer than ever. The families want to be secluded, the night that stands out the clearest of all the year, and often a child will remember the religious training of that night, perhaps changing the future years of their lives.

If it is the extra night the merchants want, why not take it at the beginning and close the stores on Christmas Eve?

A READER

ARISTOS FLOUR

Aristos Doughnuts

1 cup sour milk or cream 1 egg

1 cup sugar 1 pinch salt 1 pinch nutmeg

If milk is used, one level teaspoon soda in milk, and one of shortening. One teaspoon baking powder in Aristos Flour. Flour for stiff batter, that you will have to scrape from spoon. Sweet or sour milk may be used.

Buy Aristos Flour for quality—you will then secure economy also. Send for free recipe book.

"UNDER THE LASH" SWANSON'S WORST PICTURE

GLORIA Swanson, in a recent interview, stated that she liked her role in "Under the Lash" as a forthcoming release, better than anything she had given the screen. When asked why she liked it best, she replied that it gave her the opportunity to do some serious acting, "something heavy."

Yet many who have seen the picture say that it does not qualify as a starring vehicle for Miss Swanson. And the reason is given that she is incapable of playing such a "heavy" role.

The charm of most of Gloria's pictures has been of a personal nature, more or less. She possesses a rare quality, a loveliness of face and figure seldom seen in one woman. These attributes she displayed to good advantage in "Male and Female" and in "Something To Think

About." Her work in both of these films elevated her to stardom. Like many others who have been made a star, Miss Swanson may be committing the folly of renouncing the very characteristics which made her famous.

"Under The Lash" is the film title of "The Shulamite," the tale of a beautiful young woman married to an old Boer who believes it is sinful for a woman to possess knowledge gained of books.

Gloria is the submissive wife. Her glorious femininity is hidden in severe clothing, the marcel is combed from her hair. In fact she will present to fans an entirely different personage.

Certainly it will be interesting to draw our own conclusions, when "Under the Lash" makes its appearance here.

Madge Kennedy (Herself) In "Cornered"

THE appearance here at the Faurot on Saturday matinee and night of the talented and winsome comedienne Madge Kennedy in "Cornered," a four act comedy by Dodson Mitchell, promises to prove the most interesting and profitable in the history of the present theatrical season. Theatregoers who prefer the lighter form of stage entertainment will be interested in the fact that "Cornered" comes with very strong endorsements. It is, according to New York reviewers, an extraordinary artistic, well-acted and enjoyable production. Miss Kennedy, playing a dual role, is said to give a performance that is a thing of beauty and a joy to behold; her naive, sweet manner and personality delighted and amused large audiences nightly at the Astor Theatre, New York, during the six months run of the piece on Broadway. The young star's success was all the more notable when it is remembered that she deserted the stage for the moving picture field three years ago, where

she attained stardom from the first. It was the consensus of opinion, however, that Miss Kennedy's work as a comedienne, her charm, freshness and piquancy had lost nothing in the long absence from the theatre.

When she accepted "Cornered" and placed herself under the management of the astute Henry W. Savage, she expressed a desire to have a supporting company as capable and evenly balanced as it was possible to secure. With commendable good taste, this clever young woman elected to imperil the brilliancy of her own radiance in the stellar role, by surrounding herself with notably gifted players. Her leading man, Leslie Austen was with Ethel Barrymore in "Deceit," Maude Leone is a famous Western stock star, Amelia Gardner, long a Broadway player of distinction; Tom Walsh, Robert Forsythe, Natalie Manning, and several other equally talented players go to make up a supporting cast that might, with all propriety, be classed as all-star.

"Evangeline," With Miriam Cooper

LONGFELLOW'S beautiful story of "Evangeline" has been transferred to the screen in all its charms and unique splendor, and lovers of the children's poet will delight in each and every scene.

"Evangeline" was made several years ago and for that reason you may find a few flaws. The writer saw the picture two years ago in a small village; seems strange that we should not have had it before this time. However—

You'll go a long way to find a story as exquisite, a love as pure and trusting as Evangeline's. Your heart goes out to her as, with her aged father, she leaves the happy

home in Arcadia with her townspeople at the edict of their sovereign. Then comes the endless search for the lover who was forced to leave without her. It's a sad little story, as those who have read it well know.

Miriam Cooper in the title role is charming. She's the ideal type for the simple, loving daughter of Arcadia. Others in the supporting cast are equally pleasing and the scenes and back grounds are in keeping with the story.

School children will find "Evangeline" a most interesting subject and the grownups will enjoy it just as much.

The Sigma theatre presents "Evangeline" today and Saturday.

"Whispering Devils," With Conway Tearle

THE mere fact that Conway Tearle plays in this picture is enough to insure its popularity. "Whispering Devils" has a rather absorbing story, even the "only a dream" things, thereby spelling a perfectly good climax.

Mr. Tearle, the handsome, is cost as a vicar, whose favorite sermon is, "Tell your sin to the world, for in confession there is forgiveness."

And the handsome young girl who had sinned was forced to the deep humility of confessing before her townspeople and all the busy scandal mongers. But—

When the vicar himself had sinned his teaching was brought back to him by the father of the aforesaid girl, who demanded restitution. And thus the old adage "Practice what you preach," is vividly illustrated.

Rosemary Theby is the woman in the case, with whom the vicar falls in love, believing she is free to marry him. Then comes the knowledge that her husband still lives. But the finale, my dears, is satisfactory, so let nothing trouble you.

There are several situations which are slightly overdrawn; some of the emotion is misplaced, but on the whole, you'll find yourselves deeply absorbed in the vicar's struggle with duty, etc.

"Whispering Devils" is not a new picture. The projection is bad and the photography not what it should be. But there's some rocky bound sea backgrounds that are lovely.

The Lyric theatre presents "Whispering Devils" as its week end attraction.

THEATRE DIRECTORY

AT THE FAUROT

"The Princess of New York," with David Powell and a special cast.

AT THE MAJESTIC

A special cast is to be seen in "A Splendid Hazard," appearing today and Saturday at the Majestic theatre.

AT THE RIALTO

Hoot Gibson is starred in "Action," appearing today at the Rialto theatre. Also a new Harold Lloyd comedy.

THE AGE WE LIVE IN.

A federal judge told Charlie Chaplin's attorney that he had never seen the comedian in a film. And what's more, he had never seen any motion picture.

Motion pictures have been produced for two decades. They are one of the marvels of a marvelous age. Their art has not yet been perfected, but they have already attracted the attention and labors of leaders in all other arts.

There may be wide divergence of opinion as to the worth of photographs as entertainment, but there is no gainsaying that anyone can learn something from them. Even a federal judge in New York City might be surprised to see his own likeness animated on a screen.

CONSTANCE'S NEXT.

The first picture to be made in California by Constance Talmadge will be a story written by Edgar Selwyn, author, playwright and producer. The working title of the story is "The Divorcee." She will be directed by Sidney Franklin who directed sister Norma in "Smilin' Through," just completed. Norma's next will be "The Voice on the Minaret," Robert Hichen's story.

CONSTANCE'S NEXT.

The first picture to be made in California by Constance Talmadge will be a story written by Edgar Selwyn, author, playwright and producer. The working title of the story is "The Divorcee." She will be directed by Sidney Franklin who directed sister Norma in "Smilin' Through," just completed. Norma's next will be "The Voice on the Minaret," Robert Hichen's story.

AT THE FAUROT

"The Princess of New York," with David Powell and a special cast.

AT THE MAJESTIC

A special cast is to be seen in "A Splendid Hazard," appearing today and Saturday at the Majestic theatre.

AT THE RIALTO

Hoot Gibson is starred in "Action," appearing today at the Rialto theatre. Also a new Harold Lloyd comedy.

THE AGE WE LIVE IN.

A federal judge told Charlie Chaplin's attorney that he had never seen the comedian in a film. And what's more, he had never seen any motion picture.

Motion pictures have been produced for two decades. They are one of the marvels of a marvelous age. Their art has not yet been perfected, but they have already attracted the attention and labors of leaders in all other arts.

There may be wide divergence of opinion as to the worth of photographs as entertainment, but there is no gainsaying that anyone can learn something from them. Even a federal judge in New York City might be surprised to see his own likeness animated on a screen.

FARMERS' BUYING POWER URGED

Will Boom General Business, Head of Bureau Says

CO-OPERATION GREAT NEED

Depression is Blamed on Slump in Production

(BY J. R. HOWARD)
President of the American Farm Bureau Federation.

CHICAGO — What is behind joblessness and general depression in industry? The fact that a year ago the farmer had his purchasing power taken away from him.

In June, 1932, the price of corn was 92 per cent of its pre-war average and the general price level of all commodities was 151 per cent of the pre-war average. A bushel of corn will buy just 61 per cent what it could before the war.

If the farmers cannot buy, cities cannot sell, and unemployment results. Neither industry nor agriculture can progress until supply balances demand and exchange value of agricultural and manufactured commodities is equalized.

The farmer must not stop production. Not so long as there are hungry people in the world should he stop raising bread. The other industries must speed up. They must be willing to trade their products with the farmers. When the bottom was knocked out of farm prices, the retailers were loath to come down, too. People quit buying. The wholesalers lost out and the factories had to slow down.

CO-OPERATIVES SOLUTION

The farmer can help himself, I believe, by organizing into co-operatives. The farmer can produce individually, but he needs co-operation in distributing his products.

Farm organization in the south is already beginning to reward the cotton planter. He was the first to be hit by the decline in agricultural prices. Cotton, which sold in 1929 for 40 cents, decreased rapidly to 11 cents. Production fell to less than 50 per cent of normal. With this scarcity in sight, the price of cotton has advanced sharply.

And now, within a few weeks, the south has changed from a spirit of depression to one of optimism.

With cotton at 20 cents the banks now are able to collect on notes long past due. The purchasing power of the south consequently has been restored, and merchants are placing orders for goods that will result in relieving the situation in the north.

Business men of the south feel that the reduction of railroad freight rates should be the next step to restore prosperity.

What has just recently occurred in the south proves that once the farmer receives fair prices and gets his purchasing power back again, general business will come to life. The farmer is anxious to see industry and labor prosper. Give him back his purchasing power—a proper price for his products—and both will follow.

AMERICAN WOMEN AID EUROPEANS

MRS. ROBERT E. SPEAR
NEW YORK — A half million dollars to be known as the "Student Friendship Fund" to pay for food, clothing and medical aid for young men and women students in European universities, is being raised by American students.

The plan is being pushed by club women and women educators under the leadership of Mrs. Robert E. Spear, national president of the Y. W. C. A. Miss Jane Addams of Hull House, Chicago, and Mrs. Thomas G. Winter, president of the General Federation of Women's Clubs.

Herbert Hoover, Woodrow Wilson and presidents of many of the largest universities are members of the advisory board of the "Student Friendship Fund."

"The situation is considered desperate among European college students, thousands of whom are without a place to live during the coming winter months," says Mrs. Spear.

The relief work is to be directed by the World's Student Christian Federation, which last year administered student relief in cooperation with the American Relief Administration. More than 15,000 women students in Central Europe were given clothing and provided with a daily breakfast.

Of the campaign, Herbert Hoover said: "No greater service can be performed than to keep alive the institutions thru which the real advancement and social recovery of Europe must arise."

HERO HUGHES

Hero Hughes
Crowds acclaim Secretary of State Hughes wherever he goes since his naval holiday proposal. He's wearing out his silk topper by doffing it so much! Here he is snapped as admirers cheer him, leaving a session in Washington.

UNPAID BILL CAUSE OF ARREST OF TWO MEN

Arrested twice for the same offense was the experience of E. H. Smith and H. G. Danham, aluminum salesmen who became involved with E. F. Jones, Gomer store keeper over a gasoline bill.

The men bought gas of Jones Tuesday, and offered him a check. He refused to accept it. The men drove on and left the money with the police at Delphos.

Later they were arrested by the sheriff at Van Wert.

FRANCE WILL NOT GET GUARANTEE

Can't Hope for Protection by U. S., Bryan Says

FORCE IS THING OF THE PAST

New Order of Security Against Attack Exists Now

(By WILLIAM JENNINGS BRYAN)

WASHINGTON — France cannot hope for a treaty with the United States, by which this country will rush to her defense in case of an attack.

There was a day when it could have received favorable consideration in the senate and any favor shown it in 1919 has disappeared.

It is not that the United States is less sympathetic toward France, but that there is a growing conviction that guarantees of force will not settle the problems which the world has to meet. That was the old plan and it brought on the bloodiest war in the world's history.

GREAT REACTION

There has been a tremendous reaction against war in the United States as well as in other countries. This is shown by the refusal of congress to provide for as many soldiers in the regular army as the secretary of war asked, by its failure to vote as much money to the navy as the secretary of the navy asked and by the total disappearance of the sentiment, once quite strong, in favor of universal compulsory military training.

NEW SECURITIES

The people of the United States believe that the revolution in opinion now going on will create in France — if it has not already — a feeling that securities for the future ought to be found in the substitution of friendship and good will for the former methods of diplomacy and that these securities will not only be sufficient but very much more effective than those that rested upon the inciting of fear.

The Far East question will be settled along the same line as that which furnish security to France. With the disappearance of navies will come the spirit of conciliation.

No one would have Japan moderate her ambition. It is ambition, individual and national, which has brought in Japan development which has astonished the world. It would be a misfortune to the world if Japan's aspirations were diminished.

NATIONS DIVIDED ON NAVY CUT

Differences Between America, Britain and Japan Arise

TOKIO'S POSITION HARDEST

Important Changes in Hughes' Plan Proposed

(BY A. L. BRADFORD)

WASHINGTON — (By United Press) — The United States today was faced with the difficult task of preventing the scrapping of any vital points of its sweeping program for the limitation of naval armament. The Hughes program, hailed by the world, and accepted "in principle" by England and Japan, France and Italy in the last open session of the conference on limitation of armament is now being subjected to a virtual bombardment of suggested modifications by Great Britain and Japan.

The latest development in the campaign to modify the Hughes proposal is that within only a few minutes apart, Admiral Baron Kato,

ranking member of the Japanese delegation and a high British spokesman have made it plain important changes in the American plan are desired by their governments.

HARDEST POSITION

Japan's position probably will be the hardest of the two powers to reconcile with the Hughes program.

The situation is being given careful consideration by the American delegates and the advisory council.

The positions of Japan, Great Britain and America for reduction of navies is as follows:

AMERICA: — As indicated by American construction authorities, this government probably will make concessions to Japan—for the present. These may mean Japan's fleet will be 65 per cent during the holiday, but it is indicated America will insist on a cut to 60 percent after the holiday. Japan even with the lower fleet, is strategically better placed than either Britain, or America alone, due to the element of distance. America is opposed to the joint shipyard plan as impairing the holiday idea and as unnecessary. America is willing to make some cut in submarines but not much. American authorities consider Britain a bit illogical in talking submarines as "assassins" while holding giant aircraft which bomb cities as proper means of warfare.

JAPAN:—Japan wants "a slightly greater" tonnage allowance in capital ships, in the words of Baron Kato than the 60 percent of the American and British capital ship tonnage plan of the Hughes proposal.

Under the Hughes proposal, the

tonnage basis for capital ship replacement would be 500,000 tons for each the United States and Great Britain and 300,000 tons for Japan. The Japanese empire, it is understood, would like to have this 60 percent ratio increased to 70 percent, which would make her basis capital ship tonnage 350,000 tons. Japan is also believed to want the battleship Mutsu the most nearly completed of the latest super-dreadnaughts of her "eight-eight" program, exempted from the Hughes program. The Mutsu is a vessel of 33,800 tons, the same displacement as the Negato, today the greatest battleship in the world.

The Far Eastern empire wants too, a tonnage basis allowance in types of vessels "of strictly defensive character" which would "even approximate that of the greater navies," Baron Kato revealed. The basic tonnage allowance in light cruisers, destroyers and such ships under the American plan is 450,000 tons for the United States and Great Britain and 270,000 tons for Japan. Baron Kato was believed to be referring to these.

GREAT BRITAIN:—Great Britain would like total abolition of submarines, but realizing she cannot obtain that, because of her position, she is tentatively fixing the minimum tonnage at 45,000 tons—5,000 tons above what her present submarine supply is. One prominent naval constructor indicated America may be willing to pare to total tonnage allowed Great Britain and the United States to 80,000 tons—a 10,000 ton cut.

E-J Shoes are Sewed to Stay

Every time a boy's foot hits the ground after a jump it comes down with a firm, solid whack. His foot drives forward into his shoe and strains every seam. The stitches must be strong to hold!

It takes a sturdy E-J shoe to stand such wear. That's why wise parents insist on genuine Endicott-Johnson shoes. They've discovered that these low priced shoes last longer and cost less. They are carefully shaped and sewed into strong handsome shoes with seams lock-stitched to prevent ripping.

In black or brown. From \$2.00 to \$3.50 according to size. At shoe stores where you see the Red Square.

ENDICOTT-JOHNSON SHOES

Ask your shoe dealer for booklet "Inside Tips on American Games." It tells boys how to play.

A rope properly spliced is bound together with that same over and under locking of the strands that is used in double stitching E-J shoes.

SUGAR! SUGAR!

600 LBS. WHILE IT LASTS!

WITH THE PURCHASE OF \$1.00 OR MORE 5 LBS.

On Sale Sat., Nov. 19, 1921

TOMORROW—SATURDAY — WHILE IT LASTS—we will again place on sale 600 pounds of pure granulated sugar for 1c per pound and only 5 pounds to a customer. Last Saturday hundreds of our customers were disappointed because they came too late and the sugar was sold out in a few minutes. Our plan of asking you to purchase \$1.00 or more worth of merchandise will enable many more to take advantage of this offer. Remember this sugar will be sold in a hurry, so hurry and get your share.

INEQUALITIES OF REPRESENTATION

Election Statistician Compares Allen and Vinton-cos

EACH HAS ONE LEGISLATOR

Allen Has More Than Five Times Vinton Population

Only one inequality in the present apportionment method of choosing members of the State Legislature is pointed out by S. M. Johnson, election statistician, in figures announced Thursday at Columbus, showing that Vinton-co, with a population of 12,075, has the same representation as Allen-co, with 68,223 population — each getting only one representative.

The Ohio State Senate, only once in the next ten years, will have as many members as were in the 84th general assembly, but in every session the House will have a larger enrollment.

The House in the last legislature had 125 members, but in the next five years the membership will be between 130 and 136, according to Johnson's figures. The estimates were on the basis of the 1920 federal census figures, which govern the apportionment for the coming ten-year period.

INCREASE NOTED

Cuyahoga, which had 14 representatives in the last assembly, will have 16 members in the next four sessions and 17 in the fifth. Montgomery will have four in the next three sessions and three in the 88th and 89th.

Representations of other counties include:

Mahoning three in the next four and four in the 89th assemblies; Stark-co, three in each session; Trumbull two in the 87th and 88th and only one in the 85th, 86th and 89th.

Representation is allotted the counties on the ratio of 57,594, one-hundredths of state's population to the county population. Each county is entitled to at least one representative.

BOY FOR WEBERS

Mr. and Mrs. William J. Weber, of 1136 Hazel-av, are receiving congratulations on the birth of a nine pound son, William Joseph, Thursday morning.

FARMERS JAILED

Sentenced for Refusing to Send Children to School

WOOSTER — (By United Press) — Sin on J. Troyer and J. A. Hersberger Amish farmers, are in the Wayne-co jail today, serving 20-day sentences for refusing to send their children to school.

Judge Jones, who pronounced the sentence, gave the men their choice of paying fines or of going to jail.

"We'll go to jail," said Hersberger.

Ira Amiet, school attendance officer, said he recently was told at the home of another Amish farmer who refused to send his children to school:

"Our Bible teaches us that the world has four corners, and the geographies used in the public schools teach that the world is round."

The convicted men live in Paint-tp, the attendance officer says there are a dozen Amish families in that district who are refusing to send their children to school.

WRIGLEY SENT TO JAIL

IN DEFAULT OF PAYMENT OF \$1,000 LIQUOR FINE

Unable to pay a fine of \$1,000 imposed for bootlegging, C. E. Wrigley, 810 E. Third-st, was committed to the county jail by Judge Emmett J. Jackson, Thursday night.

Wrigley was arrested by Officer Dick Watkins and Joe Reed at his saloon, 1077 S. Main-st, Thursday afternoon. A marked \$5 given him in payment for a half pint of whisky was found in his possession.

When the police entered Wrigley endeavored to slip the bill to another man, police say. His hand was seized by Reed.

Wallace Baker, 18, witness for the city at the trial, told of entering Wrigley's place and purchasing liquor for \$2. He tendered the marked bill furnished him by the police.

The officers, waiting on the outside, raided the place as soon as the boy came out and handed them the bottle.

Wrigley denied his guilt, asserting he had not sold any liquor during the day.

Altho the police made a thorough

DELPHOS PARROT AS FIRE ALARM SYSTEM

DELPHOS — A poll parrot, the property of Mrs. Robert Ostler, proved an effective fire alarm in the family home here.

Cries of "Help! Help!" attracted the attention of Mrs. Ostler. She ran to the kitchen and found it filled with smoke. Polly was busy trying to prevent suffocation.

There was more smoke than fire, but too much of the former for the bird.

CRUEL TO BIRDS—FINED

WITHAM, Eng.—William Higgins was fined \$10 on a charge of cruelty to a goldfinch and a linnet that he used as decoys. Police say Higgins had the birds tied to a string and made them fly up and down a field.

—cured and smoked with all the goodness left in.

—tastes surprisingly good.

READY?

The man ready today got ready yesterday.

Opportunity may knock at your door today, are you ready?

The few dollars you can spare today seems so small that you think it is not worth while; you are waiting for the money to grow in your pocket and it doesn't grow.

Even tho the amount is small take it to the Allen County Savings & Loan Company. Five per cent interest is what makes it grow. You will enjoy saving as it becomes a fixed habit.

Then you will be ready for opportunity.

SHAKESPEARE CLUB SEASON INAUGURATED

An unusually large attendance marked the first regular meeting of the Shakespeare club at the public library Thursday afternoon.

During the forepart of the year the club will study Moliere's drama, "Tartuffe." At the meeting Thursday Mrs. Julia Simpson was in charge of the reading of Acts 1 and 2 of the drama. She was assisted by Mrs. W. B. Kirk, Mrs. Foss Zartman, Mrs. E. C. Abrams, Mrs. Winona Vinson Forrer, Mrs. Ross Mullen, Mrs. Paul DeWeese and Miss Mary Kirk.

Mr. F. P. Stafford was leader in the discussions which followed. They were based on the subjects "Moliere and His Times," and "His Position in the Drama."

Next meeting of the club will be held Thursday, December 1st, at the public library.

Elida Embroidery club met with Mrs. G. L. Brunk, of W. Elm-st., Wednesday evening. Needlework and contests, in which Mrs. Philip Schuchat and Mrs. Abner Bismuth were successful, were the diversions.

Guests included Mrs. Beryl A. Crites, Mrs. Irvin Sherick, Mrs. Russell Morgan, Mrs. Willis Huffer, Mrs. Orlo Emsien, Mrs. A. O. John, Mrs. Lee Hook, Mrs. C. E. Stenro, all of Elida, Mrs. Simon Morris, Mrs. Philip Schuchat, Mrs. Ernest John, Mrs. Clifford Counsellor, Mrs. William Lang, Mrs. Harry Stemen and Mrs. Charles Smith, all of this city.

Members of the Ideal club met with Mrs. A. J. Morris, of W. Spring-st., Thursday. The afternoon was enjoyed informally and a dainty luncheon was served by the hostess, assisted by Mrs. William Klinger and Mrs. Clark Saylor. Guests other than members included Mrs. William Klinger, Mrs. George Dangler, Mrs. Edwin Blank, Mrs. Lucy Seymour, Mrs. Clark Saylor and Mrs. Robert Farmer.

Next meeting will be held in two weeks with Mrs. William N. Gilles, of W. Spring-st.

Miss Aileen De Grief, daughter of Mr. and Mrs. Virgil De Grief, of W. West-st., and Fred Linder were united in marriage Thursday morning at 10 o'clock at the home of the bride's parents. The Rev. Kyle Booth officiated, the ceremony taking place before an improvised altar of palms and pink and white rosebuds. Miss Josephine DeGrief played the wedding music. An elaborate wedding breakfast followed the ceremony. Appointments were in pink and white.

Mr. Linder and his bride left immediately on a short wedding trip. They will make their home in Edison.

Out-of-town guests present for the ceremony were Mrs. J. Linder and Miss Corinne Linder, of Mt. Cleard; Mrs. Byron Smith and F. T. DeGrief, of Van Wert.

Saturday at 2.30 p. m. the Home Economic committee of the City Federation of Women's clubs will meet with Mrs. G. A. Herrett, of S. Elizabeth-st., Mrs. Beecher Mook, will act as assistant hostess. Miss Pauline Hyman is chairman of the committee.

Mrs. H. E. Goldsberry, of 408 S. Charles-st., will entertain the members of the N. B. O. O. club, Friday evening.

Mr. and Mrs. Andrew McCray of Sandusky, are the guests of Mrs. James S. Lewis of S. Main-st.

Miss Anna Dingman, field secretary for work among the foreign women for the Y. W. C. A. gave a very interesting talk to the members of the Americanization committee and the officers of the City Federation of Women's clubs, Thursday afternoon at the home of Mrs. Charles A. Black, of W. Spring-st.

Mrs. Rose Leming, of W. Vine-st., was hostess in the Polly Prim club, Thursday afternoon. Mrs. Catherine Morris held high score, and Mrs. Amelia Hauenstein, low score. The hostess served a delicious luncheon in the closing afternoon hours.

Eileen Williams, of Lima, will arrive in Lima Friday to be the week-end guest of Miss Ruth Brown, 713 Oak-st.

EARLY, PLEASE!

Those having society news for the Sunday edition are asked to send or phone it to The Lima News before 3 o'clock Saturday. Conditions have made it impossible to accept items for Sunday later than this hour. The News wants ALL the society news, but asks that contributors cooperate to make a better Sunday paper by sending it as early as possible.

SOCIAL CALENDER

FRIDAY
Miss Rosa Sharpley entertains the members of the Delta Sigma sorority at bridge for the pleasure of Miss Nellie Bigley.

T. and T. Club, 6 o'clock dinner, Mr. and Mrs. N. W. Cunningham.

Auxiliary Unit of American Legion, Memorial Hall, 7:30 p. m.

N. B. O. O. Club, Mrs. Harry E. Goldsberry.

SATURDAY
Mrs. W. L. Alligre entertains with a bridge-tee at the P. A. Kable residence, complementing Miss Nellie Bigley and Miss Helen Pence, bride-elect.

Mothers' Jovels of Trinity M. E. church, at church, at 2.30 p. m.

Home Economic Committee of City Federation of Women's clubs, Mrs. G. A. Herrett, 2.30 p. m.

Stroller's club, stay party, Marshall Williams, evening.

Daughters of Veterans to entertain Civil War veterans and wives with a 6 o'clock dinner, Memorial hall.

Mrs. B. A. Gramm entertains members of the Add-a-Stitch club with a 1 o'clock luncheon honoring Miss Oneta Nelson.

Players' Dramatic club met with Mrs. T. R. Schoonover, of S. Jamestown-av., Thursday afternoon. Plans for the three one-act plays to be presented the second week in January as a benefit for the City Hospital were discussed.

Next meeting will be held in two weeks at the home of Mrs. Frank Bell, of W. High-st.

As an informal courtesy to Miss Nellie Bigley, bride-elect of James Sparks, of Chicago, Miss Margaret Gregg, of W. North-st., was hostess to a small group of friends with a pleasant gathering, Thursday evening. Needlework was the diversion of the evening and a dainty luncheon was served by the hostess. She was assisted throughout the evening by Mrs. Roy B. Gregg.

Mrs. C. C. Kennedy, of S. Baxter-st., received the members of the Hawthorne club at her home, Thursday afternoon. Twelve members were present. Mrs. Joseph Davis gave a reading, entitled, "Red Cross". Mrs. C. W. Brookhart was successful in a contest.

Next meeting will be held in two weeks with Mrs. Raymond Cope-land.

Mrs. Henry Simler, of New York City will arrive in this city Monday to be the house guest of her sister, Mrs. D. D. Jones, of the Holland-apolis.

MISS CHRISTEN'S DAILY PAGE OF CLUB AND SOCIETY EVENTS

QUEEN MARIE, ROYAL BEAUTY, PLANS TRIP TO AMERICA IN QUEST OF AID

Queen Marie and (Below) Her Daughter, Princess Ileana.

BY MILTON BRONNER

LONDON—Some time in December America may be visited by one of the most beautiful women in Europe—Queen Marie Alexandra Victoria of Rumania.

In story books for children and in the royally-loving newspapers of Europe queens are always beautiful, whereas in fact most of them I have seen over here are very plain personages with some very dowdy clothes.

But Queen Marie isn't in that category. She is really good to look upon. In fact it is a sort of traditional piece of luck for Rumania that most of the queens of that country and most of the princesses are very pretty.

COUSIN OF KING GEORGE

Thelate King's consort, famous in literature as "Gaiety Sylvia," was a good looking woman. The present queen is the beauty of the royal family of England. She is an English princess. Her father was Duke of Edinburgh, so that she is a granddaughter of Queen Victoria, a niece of King Edward and a cousin of King George. She was born in 1873 and married when she was 18.

Fair-haired with blue-gray eyes and a democratic manner, she is beloved all over her adopted country for her charity.

When Rumania, a number of years ago had a cholera plague, she was foremost in the labor of providing hospitals. When her country went into the great war and was almost wiped out by the German hosts, she worked night and day as a Red Cross nurse. As such she came in contact with thousands of the soldier sons of the nation.

Whenever she comes to London,

Mrs. D. D. Jones, of the Holland-apolis, will attend the Ohio State-Illinois football game in Columbus, Saturday. She will be a guest at a house party to be given by Mr. and Mrs. D. S. Immerman, of Upper Arlington.

Leave your Thanksgiving poultry market at the West High Street Meat Market. Doyle Johns, proprietor, Main 6750.

she usually slips out of the kingly palace of her cousins and goes shopping in Bond-st., just like any other married woman with a bunch of kids.

WILL SEEK AID

Her mission in America will be mainly to interest Yankees in Red Cross and other charitable work in Rumania. The country has by no means recovered from the tragedy of the war and the powers that be want outside help. Her traveling companion will be Princess Ileana, one of her younger children, who bids fair to be the beauty of the family.

The Rumanian embassy here tells me there is only one point that makes them doubtful about the date of the queen's visit to America being December, for various state reasons the king and queen have not yet been crowned and this ceremony may not take place until next fall. In that event the queen may postpone her visit until next year.

SUSIE SMART SAYS

Dear Miss Smart:
I HAVE been married about a year. Lately my wife has been going around with some girls of whom I have not approved. They are respectable, as far as that is concerned, but I just don't like for my wife to go with them. She is beginning to adopt their ways. What can I do to make her stop this?

APPARENTLY you are desirous of testing your dictatorial powers on your wife. Be careful, as very often a man finds he has chosen the wrong party. You do not state why you disapprove of your wife's friends. If they are girls whom the majority of right-thinking people would condemn, you are justified in your objections.

However, if your objections are unreasonable and simply based on personal prejudice, you are much at fault.

Remember, you cannot expect to dictate to your wife. You would not care to have her choose your friends for you. She likewise expects to enjoy the privileges of selecting her own friends.

Dear Miss Smart:
(1) I have been going with a boy for two months. I feel my girl friend that he intends to get me a present for Christmas. I'm going to high school and I have not any money of my own. I depend on my father for my spending money. Is it necessary to return the gift? (2) My hair is cut very short due to an accident. Would it be alright to wear a wig? (3) I take cold very easily and it is hard to wash my hair. Is there anything I can get to take the grease out without the use of water?

WANT TO KNOW
(1) Since your acquaintanceship with this boy has been very brief, it will be just as well for you to refrain from sending him a present. Simply send a card. It would probably be more appropriate. (2) Do not wear ear rings. They are not suitable to a high school girl. (3) Orris root powder is splendid for taking the oil out of hair and making it fluffy. This may be purchased at any drug store. Hot cornmeal is also very good as a dry shampoo.

PERSPIRATION STAINS

PERSPIRATION stain is most difficult to remove.

If the stains are not really very bad, wash them in a soap solution and without wringing it ring hang them up to dry. Eau de Javelle can be used for removing lighter perspiration stains but not the deeper ones, for with the latter the material is already weakened and Javelle has a tendency to weaken still further.

Perborate of soda can be used on wool or cotton and then the material must be washed well.

Silk is best treated with salt. Make a strong solution of salt and water and let the stain soak three or four hours.

Worsted and cheviot garments should be cleaned first with benzine and then sponged with soap and clean water.

An effective mixture to keep on hand for removing slight stains as they appear is one part ammonia, three parts alcohol and three parts ether.

Very great care is necessary, however, in treating perspiration stains because the material is already weakened, thus harsh treatment is liable to wear a hole.

COOKING FOR TWO

Sister Mary Tells How to Make Puddings

To make a dessert small enough for two persons is quite a problem. Few desserts are good the second day and most are unfit to use. Choose small pudding dishes and pie pans. Include a small deeper vessel with a small earthen bowl for beating egg yolks in your kitchen equipment. This beater and bowl will be indispensable for desserts of all kinds and very convenient for salad dressings.

Cocconut Tapioca Pudding for Two
One-third cup pearl tapioca, 1 egg, 1-2 cups milk, 1-2 cup sugar, 1-2 teaspoon salt, 1-2 teaspoon vanilla, 2 tablespoons grated cocconut (fresh or dried), 2 more tablespoons sugar.

Soak tapioca in milk over night, or if the pudding is wanted for dinner, put the tapioca to soak in the morning. Add sugar and yolk of egg well beaten with the salt. Add vanilla. Turn into a buttered pudding dish and bake in a slow oven about half an hour. Beat white of egg till stiff and dry with a whisk. Add sugar and cocconut and spread over pudding.

Put in hot oven to brown the top. Serve warm.

Fig Pudding for Two
Two tablespoons butter, 1-3 cup flour, 1-3 cup milk, 1 egg, 1 cup figs, 1 teaspoon baking powder, 1-4 pound figs, 2 tablespoons more sugar.

Wash the figs and cook until tender. This will take about 1-2 hours. Add the sugar when half done and have about 1-2 cup of juice with the figs when done. Drain from sirup and chop. Cream butter and sugar. Sift in a little flour. Add yolk of egg well beaten. Mix and sift flour and baking powder and add alternately to mixture with milk. Mix well and stir in chopped figs. Pour into a pudding dish, set in a pan of hot water and bake in a moderate oven for one hour. Save the sirup from the figs and the white of the egg for the sauce.

Pudding Sauce
One-half cup powdered sugar, 2 tablespoons butter, 1 egg white, 1-2 cup fig juice.

Cream butter and sift in sugar. Beat until creamy. When ready to serve add the juice of the figs (hot).

Add the white of egg beaten till dry with a whisk. The egg is be beaten on a platter with a w or silver fork.

Cottage Pudding with Maple Syrup
One tablespoon butter, 4 ispoons baking powder, 1-2 cup flour, 1 spoon sugar, 1-2 cup milk, 1 egg, 1-4 teaspoon vanilla, 1-16 teaspoon salt.

Cream butter, add sugar and 1 to a cream. Add yolk of egg, beaten. Mix and sift flour, baking powder and salt. Add alternately first mixture with milk and van Turn into buttered and floured tin pans and bake twenty-five minutes in a moderate oven. Se warm with maple sauce.

Maple Sauce
One-half cup maple sirup, 1 white.

Beat white of egg till stiff in bowl with a Dover beater. C sirup until it forms a very soft l when tried in cold water. Pour to the egg white slowly, beating a after each addition of sirup. B two or three minutes after all sirup is in and pour over puddin (Copyright, 1921)

LETTERS TO LOVERS

BY WINONA WILCOX

SCIENCE AND CONDUCT
"Your opinion would be appreciated." Thus lovers conclude their letters about their troubles.

Now opinion does not make the best solution of human problems.

No two individuals "see things the same way." Any set of facts stated to different persons will bring out different conclusions. Whoever discusses the simplest matter with a man and a woman, an ignorant and an informed person, with youth and with age, finds a sharp divergence of opinions, and consequently asks himself if there is nothing more reliable than opinion to apply to behavior.

To their query, "religion" is the immediate answer. Religion with its creeds and moral codes which have stood the test of centuries; religion with its familiar and plain distinctions between right and wrong.

But perhaps it is the simplicity of the ancient codes of ethics which confuses so many persons when in doubt. Their own distress appears to them a unique and outside the familiar solutions.

The harassed soul is liable to think in circles until involved in complexity and blinded to all straight paths of escape. Then comes the appeal to a mind which has not been confused by pondering on a single theme. More light is demanded.

Such illumination is to be had in the sciences. One of the most startling revelations of modern science is the way it backs up or proves some ancient theories and practices.

Pioneer housewives who knew nothing of germs set their milk pails in the sun to make them smell sweet. Science proves that the direct rays of the sun are the best of germicides.

"Confession is good for the soul." To get one's trouble off one's mind by telling it to another is an ancient and successful practice. Lately it has been reamined as psychoanalysis, a new branch of psychology.

These letters are an original, if small, endeavor to treat lovers' problems according to the theory that one or another science will furnish a more desirable solution than anybody's personal opinion.

The affinity triangle cannot be solved by mathematics, but it can be settled by genetics. What is best for the child and the race is best for the individual.

The affinity triangle can be worked out by economists in which the family unit, wages, rent and the cost of living are factors. The divorced man who pays alimony and also supports a new wife and home, must divide his income; thus the scale of living is lowered for all concerned.

Sociology covers the case of the man who abandons his family for a pretty girl. It is for the best interest of society that the father remain with his offspring. His vagrant love preferences must be sacrificed to the fact of parentage.

Briefly, the sciences furnish authoritative guides for human conduct. So used, science is no longer "dry-as-dust." It is as thrilling as purely romantic literature.

COMMISSIONER GRAY FAILS TO KILL DEER

Andrew J. Gray, county commissioner, returned Thursday from a hunting trip in Maine. Gray says it is the first time in his experience of hunting in the Maine woods that he was unable to bag a deer.

Snow in the northeast is two feet deep and water seriously interfered with the efforts of the hunters. The lodge is located near the Katahdin iron works. Because of bad weather, the hunters were forced to return a week sooner than expected. Gray has been absent nearly a month.

MRS. GREEDING FUNERAL
Funeral services for Mrs. Anna Greeding, 726 N. Elizabeth-st., who died Thursday afternoon, will be held Saturday at 1.30 o'clock at the First Reformed church, Rev. T. W. Hoernemann will officiate. Interment at Elfluffton.

GUARDIAN FOR GIRL
D. S. Flick, Bluffton, has been appointed guardian of Lyla Botkin, 16, heir of the late Joseph Botkin, deceased. Miss Botkin has an interest in the life insurance and chattels left by her father, amounting in all to \$500.

EXCHANGE FIRM FAILS
NEW YORK—Announcement was made for the rostrum of the New York stock exchange today that the firm of Smith, Andrews and Marston of Baltimore had failed.

TAKE GOOD CARE OF THE DELICATE FABRICS

The average woman realizes that the utmost care must be given soft velvets, but these materials are often laid aside as ruined when a little effort would reclaim them.

Velvet should never be pressed with an iron. Rather, when it is to be renovated, put it over the steam arising from an open vessel of boiling water and brush both ways of the nap. The final brushing should always be with the nap.

The same method is effective for duvetine.

There is, too, a trick about renewing georgette blouses. A hot iron should never be used on them for it destroys the crepe effect. Rather,

they should be washed in moderate cold water and then ironed with iron which is not extremely hot.

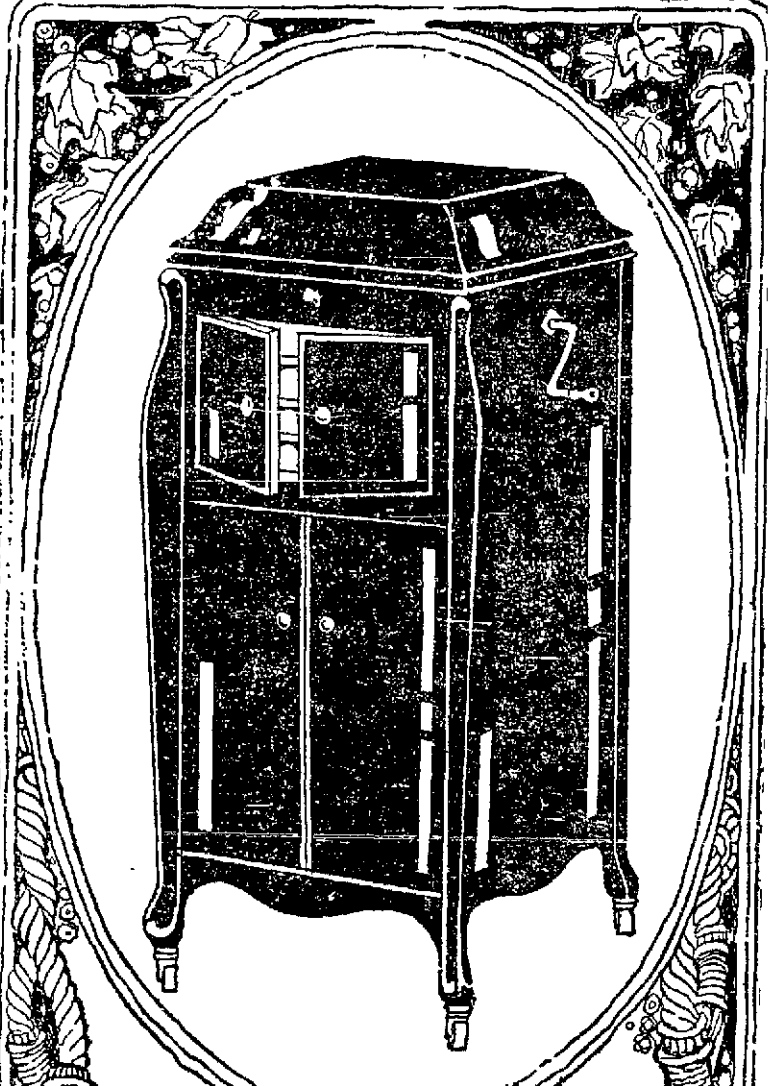

Solid laces should seldom be cleaned. The better method is to wash them in lukewarm water with a castile soap. They should be flat to dry and ironed with a mesh hot iron. Laces should never be starched. Starch rots the delicate mesh.

Such rare old laces as rose point applique and point d'ange laces should be folded carefully away from the light after each wearing. A care should be taken that the laces are not made in the same places.

This little bit of advice may help you to regain your Health, Strength and Vitality

Thousands of people suffer from nervousness. They are run down and miserable without knowing the reason why.

They do not stop to think that much of their trouble may be caused by drinking tea and coffee which contain the drugs, thein and caffeine. When you over-stimulate the system for any period of time, the result may be nervousness with its many accompanying ills. You may fail to sleep properly and your sleep does not refresh you as it should.

Postum, made from scientifically roasted cereals, will help you to overcome all these conditions. For it contains only healthful substances, instead of drugs, as are found in tea and coffee.

Postum helps build sound nerve structure, by letting you get sound, restful sleep.

In flavor, Postum is much like high-grade coffee. In fact there are many people who prefer Postum for its savory flavor alone.

Order Postum from your grocer today. Serve this rich, fragrant beverage for the family. See how the children will like it, and how much better everybody will sleep at night.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health—"There's a Reason"

PATTERN FOR TODAY

A "TRIM SUIT"

3808—Very important in the life of a little boy is a comfortable suit—whether it be for school or play. The style shown here is good for cheviot, flannel, serge, homespun, velvet and corduroy. Wash goods are also attractive.

The pattern is cut in 4 sizes: 2, 3, 4 and 5 years. A 4 year size will require 3 yards of 27 inch material. A pattern of this illustration mailed to any address on receipt of 10c in silver or stamps.

Address Pattern Department, The Lima News, Lima, Ohio.

Trim figure, neatly gloved, heavy veil affording ample protection to her features emerged from the shed and the lane, and started rapidly toward lower Sixth-ave. Rhoda Gray could see no way but one—that of exposing and proving the guilt of this vile clique who now surrounded her, and who had actually instigated and planned the crime of which she was accused.

If it had not been for the Adventurer, she would even now be behind prison bars. It was hard just to grope out amidst surroundings that made her soul sick. It was hard to do this and—still keep her courage and her faith.

She had reached the lower section of Sixth-ave. Perlmutter's office was still a little farther on. Thru a few-er's window, she noted the time. It was not quite 10 o'clock—and, this was the place; here was Perlmutter's name amongst those on the name-plate at the street entrance of a small three-story building.

She entered the hallway, and found it deserted, and very poorly lighted. Perlmutter's room was No. 11, and on the next floor.

She mounted the stairs, moved quickly down the dim hallway, and stopped before the door of room No. 11. The tried the door—it was unlocked. She pushed it noiselessly open, stepped inside, and closed it behind her. The round, white ray of her flashlight went dancing inquisitively around the office, in front of her. She stepped quickly around the flat-topped desk—and a low cry of dismay came from her. The lower drawer had been completely removed, and lay upturned beside the swivel chair, its contents strewn around in all directions.

There was no need to search amongst those papers on the floor. A little dazed, overwrought, she made her way out of the building, and to the street. And then suddenly she turned hurriedly into a cross-street, and headed over toward the East Side. She must find Nicky Viner herself and warn the man. It was but a little after ten now—she had nearly two hours in which to accomplish what should not take her more than a few minutes.

Five minutes, ten minutes passed; and, in a narrow street she halted, drawn back in the shadows of a doorway, and studied a tenement building that was just ahead of her. Not a light showed in the place from top to bottom. From its exterior it might have been uninhabited, even long deserted. Seizing her opportunity when for a half a block or more the street was free of pedestrians, she stole to the hall, while her hand went to her pocket for the reassuring touch of her revolver. Feeling out before her with her

hands, she reached the stairs and began to mount them. She dared not make any noise. Gaining the landing she halted, then was trying Nicky Viner's door. It was unlocked, and as she opened it for the space of a crack, there showed a tiny chink of light. She pushed the door open quickly, silently, tip-toed over the threshold and closed the door softly behind her. The light came from the inner room and shone thru the connecting door, which was open, and there was a movement from within, and a low, growling voice, petulant, wailing, Nicky Viner was not alone in there! A figure had come into her line of vision in that other room—it was the Adventurer.

Rhoda Gray moved quietly nearly opposite the lighted doorway. A single gas jet did little more than disperse the shadows from its immediate neighborhood in that inner room. But she could see Nicky Viner, an old, gray-bearded man, wringing his hands in groveling misery, while the mumbly voice kept on. And she could see the Adventurer, quite unmoved, standing there, his right hand in the side pocket of his coat, his left hand holding a sheet of paper, legal-looking documents.

"I have simply come to sell you these papers, which you are really most anxious to buy—at any price."

"It's a lie!" the other croaked hoarsely. "Those papers are a lie! I am innocent. I am poor—an old man—and poor."

"Quite so, my dear Mr. Viner," the Adventurer agreed smoothly. "It would appear, then, from what you say that I have been mistaken." He took a backward step toward the door. "The papers are doubtless of no value to you, so you can, of course, have no objection to my handling them over to the police, who—"

"No, no! Wait! Wait!" the other whispered wildly.

"I'll—"

"Buy them?" suggested the Adventurer pleasantly.

"Yes, I—I've got a little money, only a little—a hundred dollars."

"How much did you say?" inquired the Adventurer coldly.

"Two hundred," the voice was a muffled whine.

The Adventurer took another backward step.

"Three hundred!"

Another step.

"Five—a thousand!"

The Adventurer laughed suddenly.

"That's better!" he said. "Where you keep a thousand, you keep the rest. Where is the thousand, Mr. Viner?"

The bent figure hesitated a moment; and then pointed to the table.

"It's there," he whimpered "God's curse on you!"

The Adventurer, his right hand still in his coat pocket, where he knew it grasped his revolver, faced the other with the table between them.

The bent old figure grasped at the top of the table, and jerked it toward him. The surface slid sideways two or three inches, and then stuck; but the Adventurer thrust the fingers of his left hand into the crevice, drew out a number of loose banknotes, and thrust his fingers in again.

"Open it wider!" he commanded curtly.

"I—I'm trying to," the other mumbled, and bent down to peer under the table. "The catch is underneath, and—"

The gray head popped above the level of the table again, and a revolver was thrust into it. Adventurer's face; and the Adventurer, caught at a disadvantage, since his hand in his coat pocket was below the intervening table top, stood there motionless.

And then again the gray beard and the gray hair too, seemed to fall and flutter to the table, and the bent shoulders were not bent any more, and it wasn't Nicky Viner at all—only a clever, a wonderfully clever, impersonation. Those narrowed eyes, that leering, gloating face, those working lips were Danglar's.

A very common cause of constipation

Poor appetite is now known to be an important factor in this condition

A RECOGNIZED authority on the subject of constipation maintains that "a poor appetite is a very common cause of constipation, especially in women." A certain quantity of food is necessary for the intestines to function normally.

The same authority also says: "Insufficient food leads directly to emaciation and physical weakness as well as to constipation; it causes the already depressed nervous system to deteriorate still further, and this reacts again on the digestion, so that the dyspepsia and constipation become more severe."

Under such conditions Fleischmann's Yeast has remarkable value as a laxative food and conditioner. It furnishes a large amount of the water-soluble vitamins which helps all the processes of digestion, and, in addition, because of its freshness (you get it fresh daily) it helps the intestines in their elimination of poisonous waste matter. Thousands are adding Fleischmann's

Yeast to their daily diet, and by eating regularly from 2 to 3 cakes a day are restoring and maintaining normal action of the bowels.

Fleischmann's Yeast is a pure, fresh food assimilated like any other familiar food. Eat it daily—have it on the table at home. Have it at your office and eat it at your desk. Get it at your lunch place. You will like its fresh, distinctive flavor, and the clean, wholesome taste it leaves in your mouth. Only one precaution: if troubled with gas dissolve the yeast first in very hot water. This does not affect the efficacy of the yeast. Place a standing order with your grocer for Fleischmann's Yeast.

Send 4 cents in stamps for the booklet, "The New Importance of Yeast in Diet." So many inquiries are coming in daily for this booklet that it is necessary to make this nominal charge to cover cost of handling and mailing. Address THE FLEISCHMANN COMPANY, 701 Washington Street, New York City.

The need for scientifically tested yeast

Fresh yeast has been proved by recent scientific tests to be a valuable food for correcting run-down condition, constipation, indigestion and certain skin disorders. These original tests were all made with Fleischmann's Yeast. Beware of untested yeast-vitamins preparations that contain drugs or other mixtures. Fleischmann's Yeast (fresh) is a pure food, rich in vitamins, in which it measures up to the high standards set by laboratories and hospitals. The familiar tin-foil package with the yellow label is the only form in which Fleischmann's Yeast for Health is sold.

FIGHT OVER WILL NEARS END

Countess in Last Attempt to Get Mother's Estate

HUGE SUM IS INVOLVED

Physicians Say Woman Unbalanced, Others Deny It

By EDWARD THURRY
ATLANTIC CITY — The fight over Mrs. Alice Gerr, Griswold's will is nearing an end in the long court struggle with international complications to decide these questions:
Whether the aged Mrs. Griswold was a mental wreck when she made her last will?
Why this will is to cut off Mrs. Griswold's daughter, Countess Anna St. Clair da Contubia, with \$500 and leave the bulk of her estate to Mrs. Mary A. Drischman, wife of a retired Atlantic City butcher?
Why Mrs. Griswold gave Mrs. Drischman complete control of her estate for six years?
Countess da Contubia is making a last stand fight for her mother's estate.
Here's the story as it was unfolded by court testimony:
Mrs. Griswold made her first will, leaving the bulk of her estate to her countess daughter.
CUTS OFF COUNTRESS
Then she made Mrs. Drischman manager of the estate, giving the latter a commission of 10 per cent on all transactions.
Later she made a new will, cutting off the countess with \$500 and giving her property all to Mrs. Drischman.
Physicians have testified Mrs. Griswold was unbalanced by alcohol and drugs when she made this will. Other physicians, equally competent, have testified she was not.
When Mrs. Drischman took control of the estate, its value was estimated at \$227,786.
"I can't remember how much money I made," Mrs. Drischman said. "It was right smart money as I pulled off some smart deals for her."
Mrs. Griswold is said to have lavished gifts on Mrs. Drischman. One of these was an ornately furnished home. Mrs. Drischman later offered this home to President Harding for use as the summer White House.
Mrs. Griswold was 70 when she died. She had been married three times, once widowed, once divorced and separated from her last husband. She was a niece of Elbridge Gerry and related by marriage to the Vanderbilts. Her first husband was Melville Patterson of Baltimore, related directly to Betty Patterson, wife of Jerome Bonaparte, Napoleon's brother.

COUNTESS OPPOSES MOTHER'S FRIEND

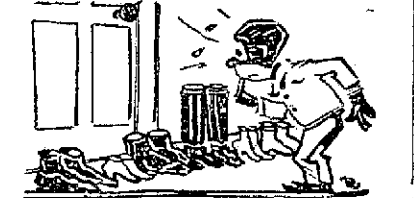

SIDE LINE ON THE CONFERENCE

WASHINGTON — home! I must go!
It was Rene Viviani with an almost hoarse head. Rene souped his wife's apartment.
"Noise! I must go!"
"Poor, dear man—you should have put cotton in your ears." Gently, Rene stopped his tramping. He was thoughtful. His hand rubbed his forehead.
"That is an idea—now I might have done that." His mild blue eyes looked gratefully at his wife.
Viviani's room was changed by the management.
A bushy little gentleman in Aristide Briand, prime minister of France and chief delegate to the conference from that country. Watchful gray eyes, kind but keen. Heavy brows that knot and bunch when he laughs and are a bit slant in repose.
A trick of turning his whole body as he turns his head. Long hands, rather nervous hands, which follow his words.
"You keep your rooms so warm," he boomed, "and very likely so you can eat your ices!"
"Oh, yes, they're very good! But you amuse me greatly." He was laughing, that good-natured growl. He leaned with his hands beside his knees on the chair. "Freezing cold outside and you sit in your hot rooms eating ices!"
Briand was growling again that snarl-growl which sets well with his heavy iron-gray hair, his grimy-gripping hand and his absolute self-possession.
Intense, silent, sphinx-like—Admiral Kato. His smile, a rare, whimsical thing, spreads slowly over a slim, dark-skinned face and vanishes almost instantly.
Silent, reflective.
His words, low-spoken words, almost musical, come slowly. A voice with little glints of fire under its rhythmic flow.
Composed, tranquil, poised, deliberate. But an underlying alertness, keen, quick, ready!
Briand Kato's leisure hours? Golf? Reading? Motoring, perhaps?
"I take little nap." Gently, easily, with a slow smile.
"Work hard!" intensely. "Then take little nap." easily.
Shoes. Just shoes. Shoes tumbling out of bags in Mr. and Mrs. Malkin's apartment. Shoes in neat lines around trunks, bags and boxes in Sir and Lady Chatfield's apartment.
Shoes lining the walls in Lord and Lady Lee's apartments. Powerful lot of English shoes came to the conference.
George A. F. Vanaise, commissaire special de police, France (officially attached to the French delegation), has to have his little joke. "He say to me," nodding brightly toward one of the American se-

cret service men with the French delegation, "Why don't Monsieur Viviani say where he is going?"
"I laugh," he ask him, "I say—"

Principal in the Griswold will case. Left to right: Mrs. Mary Drischman, Mrs. Alice Griswold and Countess Anna St. Clair da Contubia.

Mrs. L. C. Christie, one of two Canadian women here with the delegation, wears, in her walks and rides about Washington, silk stockings in huge plaids—the checks are possibly two inches wide.

JURY COMPLETED

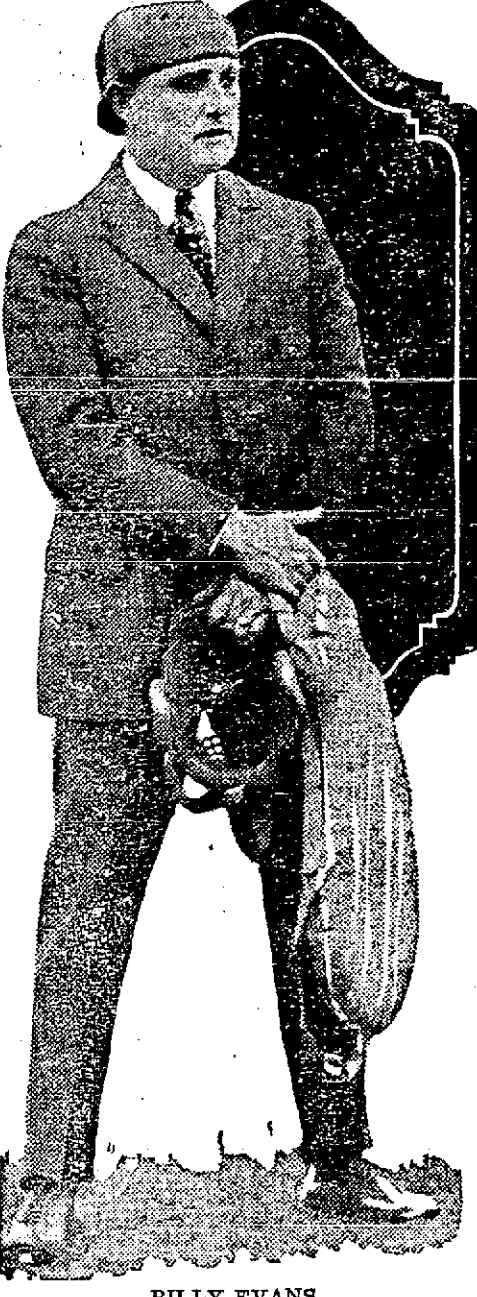

Selected for the Trial of Fatty Arbuckle

SAN FRANCISCO—(By United Press)—The jury for the trial of Fatty Arbuckle, accused of manslaughter in connection with the death of Virginia Rappe, was completed at 10:20 a. m., today.
When the twelfth juror was sworn in, attorneys started picking a thirteenth or alternate juror to act in case of disability of any member of the regular jury.
The thirteenth juror was soon selected and attorneys agreed to proceed without a fourteenth.
A recess which may last until 2 p. m., today, was then declared to give time to gather witnesses into the courtroom.

RIVER SWOLLEN
CINCINNATI — Continued heavy rains over the Ohio valley have caused a decided rise in the Ohio river and its tributaries. The gauge at Cincinnati this morning registered 25.7 feet, a rise of nearly 10 feet since yesterday morning. The Licking river was running out rapidly this morning, the result of heavy rains in the Kentucky district.
BREAD PRICES CUT
COLUMBUS—The wholesale price of bread here was cut today. Pound loaves will now wholesale for 7 1-2

cents, instead of 8 1-2 and the pound and a half loaves will sell for 12 cents instead of 12 1-2, the former price.

MILTON KUGELMAN, Prop.

MILTON KUGELMAN

U. S. AND BRITAIN AGREE ON NAVY

Proposed Curtailment Satisfactory to London Envoys

JAPS WANT MORE TONNAGE

Seek Ratio Equal to America and England

WASHINGTON — (By Associated Press) — Action of the British government announced from London today, in ordering work stopped on the four capital ships of the Hood type, the only capital ship building program on which the British have been engaged since the armistice, came as no surprise here. There was much doubt even before the conference on limitation of armaments was called by President Harding that the British would complete these ships. Their status as to construction on most American tabulations has been carried as "doubtful."

In any case, deliberations of the technical commission headed by Assistant Secretary Roosevelt, and including highest naval officers of the two powers represented in the conference, appear to have reached a point where the capital ship ratio may be considered settled so far as the British and American fleets are concerned.

POINT SETTLED

The American proposal that Great Britain retain 18 battleships and four battle cruisers and the United States 18 battleships seems to have been accepted by the experts which implies final acceptance by the conference itself of that element of the program. The British admiralty order stopping work on the four new ships is only an added straw to show which way the wind is blowing. It is not clear, however, that the experts have as yet reached a conclusion as to Japan's fleet strength. Formal announcement yesterday by Admiral Baron Kato, heading the Japanese group, that Japan desired more than the sixty per cent ratio in general naval tonnage allowed for her under the American proposal was taken as meaning that this is the point now being debated by the five admirals of the sub-committee and their staffs.

It has been said that the Japanese desired a fleet ratio to British or American strength of 70 instead of 60 per cent. Baron Kato did not disclose the actual figures, saying merely that he sought a "slight increase" in proportional strength. There is no doubt that this would be viewed by American naval opinion as a violation of one of the four "general principles" laid down by General Secretary Hughes as those applied by the American delegation in shaping a reduction and limitation proposal upon an "entirely reasonable and practicable basis to the end that the just interests of all shall be adequately guarded and that national security and defense shall be maintained."

The third general proposition stated by Mr. Hughes was "that in general, regard should be had to the existing naval strength of the powers concerned."

POSSIBLE ADJUSTMENT

This has application to the Japanese proposed modification as to tonnage ratio, it is said, inasmuch as Japan does not now possess even the sixty per cent ratio allowed under the American proposals.

If concrete terms of the Japanese counter proposal deal only with her desire to retain the new superdreadnoughts, just commissioned, and that figures out into a "slight" increase in general tonnage it is possible an adjustment could be reached by recasting the list of specific ships laid down by Mr. Hughes as those to be retained by each power in the proposed immediate reduction of existing forces. If the Japanese claim is for an actual higher ratio of naval power however, and there is

NO "CZAR" AT HOME!

Judge Keneasw Mountain Landis, "czar" of baseball, can tell Babe Ruth and the Standard Oil Co. a thing or two. He may be a fearless man, but he kowtows to these two persons. They are Nancy Reed Landis and Richard William Phillips, Jr., grandchildren.

some indication that it is, the question will be more difficult of treatment.

There is no doubt that American naval opinion regards the original proposal of sixty per cent for Japan as extremely liberal. In view of Japan's place in the roll of nations viewed from her economic or other interests as compared with those of Great Britain or the United States. The plain fact of the matter seems to be in the judgment of those American officers who will express opinions that they feel Japan is not entitled to such a naval force as might permit her to dominate the situation in Oriental waters should the issue in China or elsewhere in the Far East be brought at some future time to the test of war. The fleet ratio of Japan involves this point, it is said.

As to Japan's desire for equal tonnage with the other powers in a "purely defensive" type of ship, it is said, much would depend on what kind of a ship it is she wishes to maintain under this modification. Baron Kato said it was not submarines. That leaves light cruisers and destroyers, presumably. If it is

A standard treatment with thousands who know how quickly it heats sick skins. Ask anyone who has tried it.

U. S. WILL ACCEPT FORD'S OFFER

Auto Manufacturer to Take Over Muscle Shoals Plant

COMPLETION TO BE RUSHED

Saving of Millions for Government Planned

(By HERBERT W. WALKER)
WASHINGTON — (United Press) — Acceptance of Henry Ford's big offer for the Muscle Shoals nitrate plant, virtually has been decided upon by the Harding administration.

This was learned from high official sources, as the automobile manufacturer came here today to discuss details of his proposals with Secretary of War Weeks.

FORD'S PLAN

Ford informed the United Press shortly before the conference that he is prepared to remove one of the administration's main objections to the acceptance of his offer, under which the government will eventually receive between \$100,000,000 and \$250,000,000.

Backed by his engineers, Ford said he would inform Weeks he could complete the Wilson dam, using Ford engineers and Ford efficiency methods for the government at an estimated cost of between \$18,000,000 and \$20,000,000.

War department engineers have asserted that the cost of completing the plant for Ford would be from \$28,000,000 to \$50,000,000 and Secretary of War Weeks has taken the position that congress might balk at such a large appropriation. The Ford offer requires that the government complete the plant. This work mainly will be to finish the Wilson dam, from which 600,000 horsepower will be developed.

Other than this he will make no new proposals and will stand pat on his original offer.

CAN CUT COST

"I can complete the dam for between \$18,000,000 and \$20,000,000. I believe," said Ford today, in an exclusive statement to the United Press, "and I can do it in one-third less time than the government estimates will be required. This is the conclusion of my engineers who have made a careful survey of the situation."

"If the government will agree to pay for it, I will build the dam and build it quick, so that this industrial project be no longer delayed."

As soon as the dam is completed, Ford hopes to have several of his new plants ready for operation.

"The completion and operation of the Muscle Shoals plant ought to be a vital factor in the revival of river traffic on the Tennessee, the Ohio and Mississippi," Ford said. "Already, we have had a proposition made looking toward the establishment of a packet line between Iron-

ton, Ohio, and Paducah, Ky., in which a new type of river steamer will be used."

(Copyright, 1921.)

EUROPEAN CONDITIONS PICTURED FOR 4-MEN B YSLAVIC AUTHORITY

Present day conditions in Central Europe are vividly and interestingly addressed before the "Y" 4 Men's club at the association building Thursday night by Louis Miskovsky, professor of Slavic languages in Oberlin college.

Professor Miskovsky delved back into the checkered careers of various nations in middle Europe for a thousand years, explaining their history and the various animosities which are breeding new wars among the little nations liberated by the world war.

About 65 men, foremen and executives in Lima plants, were present and enjoyed a luncheon prior to the address.

The next meeting of the club, S. C. Biddle, industrial secretary, announces, will be held about the middle of December. Juston Rosebush, president of the Patton Paper company, Appleton, Wisconsin, is slated to be the principal speaker.

LEARNING TO PLAY GOLF? FORGET THE BALL AND BEGIN TO SWING CORRECTLY, BILLY EVANS ADVISES

BY BILLY EVANS
Some years ago a certain major league baseball manager barred gloves of any kind for the first four days of the training trip. It was a radical departure from the methods ordinarily used in conditioning a major league club. Naturally the innovation received much publicity. The thought was to make the players gradually work themselves into playing condition, without any

injurious effects. Naturally the absence of the catching gloves kept the pitchers from cutting loose. It also held good for the other players.
Instead of a bunch of sore arms, a directly opposite condition prevailed. The desire was to get the players in shape to stand the strain, before bringing the gloves on the scene.
The innovation took so well, that many of the major league managers who at first ridiculed the idea, are now strong for it. Nothing doing on the gloves, now is the watchword in the camps of a number of major league teams during the first

week of training.
What holds good in the development of ball players can also be applied to golf. I have talked with a great many of the leading golf professionals, also some of our best amateur players, and all of them are agreed that golf wouldn't be so difficult a game to master if it was possible to change the method of instruction, and have the players rigidly stick to it.
If it were possible to satisfy the beginner in golf by giving him instruction without using a golf ball, his progress would be much faster, and far more satisfactory

in the end. The swing or the stroke is the thing in golf. However, to the player just starting, the big objective is swatting the ball.
"Forget there is such a thing as a ball used in playing golf. Concentrate on the swing. When you have mastered the swing, apply it to hitting the ball. No one tries to run a child before he has learned how to walk. Most people are learning the golf game along those lines. They insist on trying to hit the ball before they have properly learned how to do so. That is why it is so easy to lose one's temper

when playing golf. That is why after a player has hit three or four balls into the water trap, he often throws his club along to keep company with the balls. Such players lack the proper foundation for their game, they failed to start properly.
The above comment is from one of the game's leading professionals. It is his original idea as to how one should learn to master golf. Forget the ball, concentrate on the swing, is his story in a few words.

LIMA FIGHTER TO BATTLE TONIGHT

Don Bowsher

This 155-pound youngster of Lima, will fight Johnny Papke tonight in the 10-round main go of the Lima Gym Club's fight card. He is claimant of the middleweight championship of Ohio and is ready to meet all comers at 155-160 pounds.

AINSMITH GOES BIG IN THE NATIONAL

MANAGER Branch Rickey of the St. Louis Cardinals, is at a loss to understand how Catcher Eddie Ainsmith was ever walled out of the American League. Rickey says the addition of Ainsmith greatly strengthened his team, really rounded it into a pennant contender.
Rickey says he knows the value of every American League catcher, and that there are only two or three in the organization who have anything on the former star of the Washington and Detroit clubs. Rickey plans to have Ainsmith do most of the backstop work for the Cardinals next season.

South Hits Up A Fast Pace To Defeat Central

The South Hi football aggregation is looking up with more enthusiasm and fighting ability every night of practice.

Each man who sports the pinstriped realizes that every effort will have to be concentrated to enable South Hi to beat Central when the two schools meet on the gridiron Thanksgiving morning.

HAD WEAK OPPONENTS.

South has battled comparatively weak teams throughout the season with the possible exception of Findlay, Bluffton and Troy.
Last Saturday when Central held Silvers Hi of Dayton to such a small margin it upset the dope that had been gathered. It is hard to compare the strength of the two teams. No individual brilliancy is being developed at the downtown school, but Coach O. J. Dietrich is hammering that collective punch in his squad which cannot overlooked when comparing two teams.

TAKES NO CHANCES.

Coach Ward Young is taking every possible means of strengthening the South Hi team in all departments. Blackboard lectures are being intermingled with field work to acquaint his team members with plans which he believes will crush Dietrich's squad.

The two coaches seem to be estranged. They are both graduates of Wittenberg university. Coach Young declares that Dietrich has given him a shady deal in some recent inter-school transactions.
That makes Young doubly anxious to defeat Central. He feels that by defeating Central he is at the same time handing Dietrich a black-eye.

BOWSHER LEADS FIGHT CARD HERE TONIGHT

LIMA PUG TO MEET JOHNNY PAPKE IN THE MAIN BOUT

The Lima Gym Club is ready to stage its second fight show of the season at Memorial Hall tonight. A dozen pugilists are slated to display their fistie wares in

TONIGHT'S BILL IN BRIEF

Don Bowsher, Lima, meets Johnny Papke, Cleveland, in 10-round main go at 155 pounds. Bowsher claimant of Ohio middleweight championship.

K. O. Jeakle, Bradner, fights Jimmy Shevlin, Cleveland, in a 10-round semi-final at 137 pounds. Jeakle is the lad who knocked out Tommy Harrison here two months ago in the second round of their scheduled 10-round bout.

Preliminaries: Tommy Burns vs. Paul Carrino, Sailor Grant vs. O. K. Scott, Bill Musser vs. Tommy Warren, Young Kemple vs. Hud Say.

Fight being staged by Lima Gym Club under supervision of the Lima Boxing Commission.

First bout will start promptly at 8 o'clock.

40 rounds of boxing, headed by a 10-round encounter between Don Bowsher, Lima, and Johnny Papke, Cleveland.

Both of these mitt artists are to weigh in at 155 pounds this afternoon at three o'clock.

Bowsher is now a claimant to the middleweight championship of Ohio and has recently issued a state-wide challenge to meet any boy at 155-160 pounds.

K. O. Jeakle, Bradner, is a tough out to crack. But Jimmy Shevlin has his number and aims to put him in a brief sleep in the early rounds. Jeakle is the same lad who knocked out Tommy Harrison, Chicago, here two months ago in the second round of their scheduled 10-round bout.

After the count Jeakle fairly went

mad and his seconds had to jump in the ring and hold him from inflicting punishment on the helpless Chicagoan.

Four preliminaries will precede these two fights.

Probably the most interest in the preliminaries is that between Young Kemple, of Wapakoneta, and Rud Say, of Delphos. Kemple defeated Jeff Gordon in Wapak Wednesday night. Hud Say should be able to give him some stiff opposition.

BOWLING RESULTS

LION'S LEAGUE

Team No. 2 of the Lions club had an easy time Thursday night in winning three straight games from Team No. 3, despite the fact that they did not hang up any remarkable scores. Simons was the highest individual scorer, piling up a total count of 194 plus the second game.

Thomas, of the losing team, got a poor start and was only able to get a score of 91 plus in the first game.

Scores:
Team No. 3
Roberts 144 157 164
Maag 128 154 126
Thomas 91 116 148
Nelson 136 156 124

Totals 499 583 522

Team No. 2
Hedges 189 176 168
Past 112 191 109
Hay 147 182 172
Simons 121 191 148

Totals 522 650 595

INDUSTRIAL LEAGUE

The San Police bowlers fairly went wild Thursday night and won three straight games from the L. E. & W. quintet in the Y. M. C. A. Industrial league. In all three games the cigar makers rolled consistently and kept a neat lead. In the first game their team score was 751, in the second 520 and in the third 819.

King made the highest individual score of the evening when he knocked the maples for a count of 192 in the last game.

Scores:
L. E. & W.
Watlet 145 154 152
Spicer 174 149 151
Bipley 158 132 120
Stewart 142 155 164

Totals 751 539 519

BUSINESS MEN'S LEAGUE

W. B. Kirk's team, of maple smashers crashed into the 10 wooden men at the Y. M. C. A. alleys Thursday and defeated Dr. Hay's quintet in three straight games.

Kirk is an exceptionally good bowler and is a charter member of the famous Pierce's cripples team. He went out against Hay's team and only bowled 174 as his highest score.

R. J. Plate was high individual scorer with a total count of 219 pins in the second game. Dexter, of the losing team, was only able to score 95 in the last game.

Scores:
Dr. Hay's Team

Yale Captain Is Leading Point Scorer Of Major Grid Teams

Malcolm P. Aldrich

In the reports coming out of the east, relative to the football players having a chance to win berths on the many mythical All-American elevens that will be selected, little has been heard about Captain Aldrich of Yale. Aldrich has been a mighty busy individual keeping his Yale eleven out in front. Aldrich can point to his record as evidence of the fact that he has been playing great football. He is the leading individual scorer in major college football. Up to date he has made 9 touchdowns, kicked 17 goals from touchdowns and 4 field goals, for a total of 83 points. Kaw of Cornell has made ten touchdowns, which is the greatest number made by any player.

ILLINOIS EAGER TO DEFEAT O. S. U. IN GAME SATURDAY

COLUMBUS—With the heavy drill of a strenuous seas over, and both teams keyed to fighting pitch, each determined land in the winning column, Illinois and Ohio State clash here Saturday in their eighth annual gridiron battle.

So great is the interest in the game and so unprecedented the demand for tickets that an electric scoreboard will be used to give the overflow crowd an opportunity to "witness" the game.

Ohio State looks to be a big favorite over Illinois based on the season's performances — but Ohio coaches and players long since have discarded that fallacious argument. They know full well that Zuppke would rather beat the Buckeyes than any other eleven in the Big Ten.

Ohio State scouts who have scrutinized every move of Zuppke's charges, insist Illinois has the makings of a typical Sucker eleven—one that is smartly coached, on its toes every minute of play and likely to be dangerous at any time.

SCOUTS GET DOPE

That early season defeats were due to a combination of injuries to essential players and departure from Zuppke's old style of play rather than to inherent weakness is the belief of the Ohio scouts.

Each week they have reported the Illinois showing real improvement and have predicted all along that the invaders would be just about ripe to fall in all their wrath on the Ohioans along about Nov. 19.

REMEMBER BIG DEFEAT

Only the initial contest between the Illinois-Ohio rivals was one-sided. Illinois winning 37 to 0 the second year Ohio tried its hand at big league football. The year following, 1915, Ohio double-crossed the all-wise critics by finishing even with the Ill in 3 to 3 game. Only a related tie points registered by Bart Macombe put the Illini on an even footing with the Ohioans.

In 1916, Chic Harley annexed title on Illinois field by putting Ohio State out in front in that now historic 7 to 6 game. A year later, Ohio, in winning its second consecutive championship, sprang Illinois to 13 to 0. In 1918, the S. A. T. year, the Illini were on the long end of a 13 to 0 count.

EDGED OUT OF FIRST

With the Big Ten title in the grasp, Ohio State's gridders were forced to be content with second place when Zuppke's proteges stepped up, nine points with only seconds spare before the final whistle, winning 9 to 7. Last fall, "True Myers" present Buckeye captain crushed Illinois' hopes after the whistle was blown, the play had started a second before the blast.

SIX CITIES WANT SHOOT

Six cities are in the field for the 1922 Grand American Handicap, trap shooting classic. The cities seeking the event are Chicago, Cleveland, Indianapolis, Kansas City, Ohio double-crossed the all-wise critics by finishing even with the Ill in 3 to 3 game. Only a related tie points registered by Bart Macombe put the Illini on an even footing with the Ohioans.

Only the initial contest between the Illinois-Ohio rivals was one-sided. Illinois winning 37 to 0 the second year Ohio tried its hand at big league football. 2 CARDS OF THANKS

CARD OF THANKS—We wish to ex-
press our thanks to our many friends
and neighbors for their kindness and
help thru the sickness and death of
our husband and father, also for the
beautiful flowers, the Rev. Eugene
Gardner for his kind words, also the
singers for their beautiful songs, the
deacons that decorated their automo-
biles, the Carpenters Union for their
services, Mrs. M. W. McNally and
family.

CHINA BACKED BY GREAT BRITAIN

Falls in Line With France For the Open Door

WILL SURRENDER RIGHTS

Ready to Help Flowery Republic Become Economic Power

WASHINGTON — (By Associated Press) — With the arms conference in adjournment, the various national groups further developed in consultation among themselves today the policies they will follow with regard to the Far Eastern questions and the limitation of national armaments.

The British, following the lead of the French let it be known that as a cardinal principle of their attitude toward the Far Eastern situation, they stood ready to perpetuate the "open door" in China, give up extra territorial rights there as well as China's development will permit, and in general aid the Chinese people to assume a place of economic influence in the world. It was fully expected that Italy, whose interest is more remote, would take the same position.

The Japanese having already declared their willingness to accept the Chinese declaration of "principles" as a "basis of discussion," were at work framing a more detailed statement of their position after consultation with Tokyo.

There were indications that the Chinese would occupy a prominent place in such a statement with special taking the position that the powers cannot give up extra territorial rights until the Chinese court system has been substantially expanded and restructured.

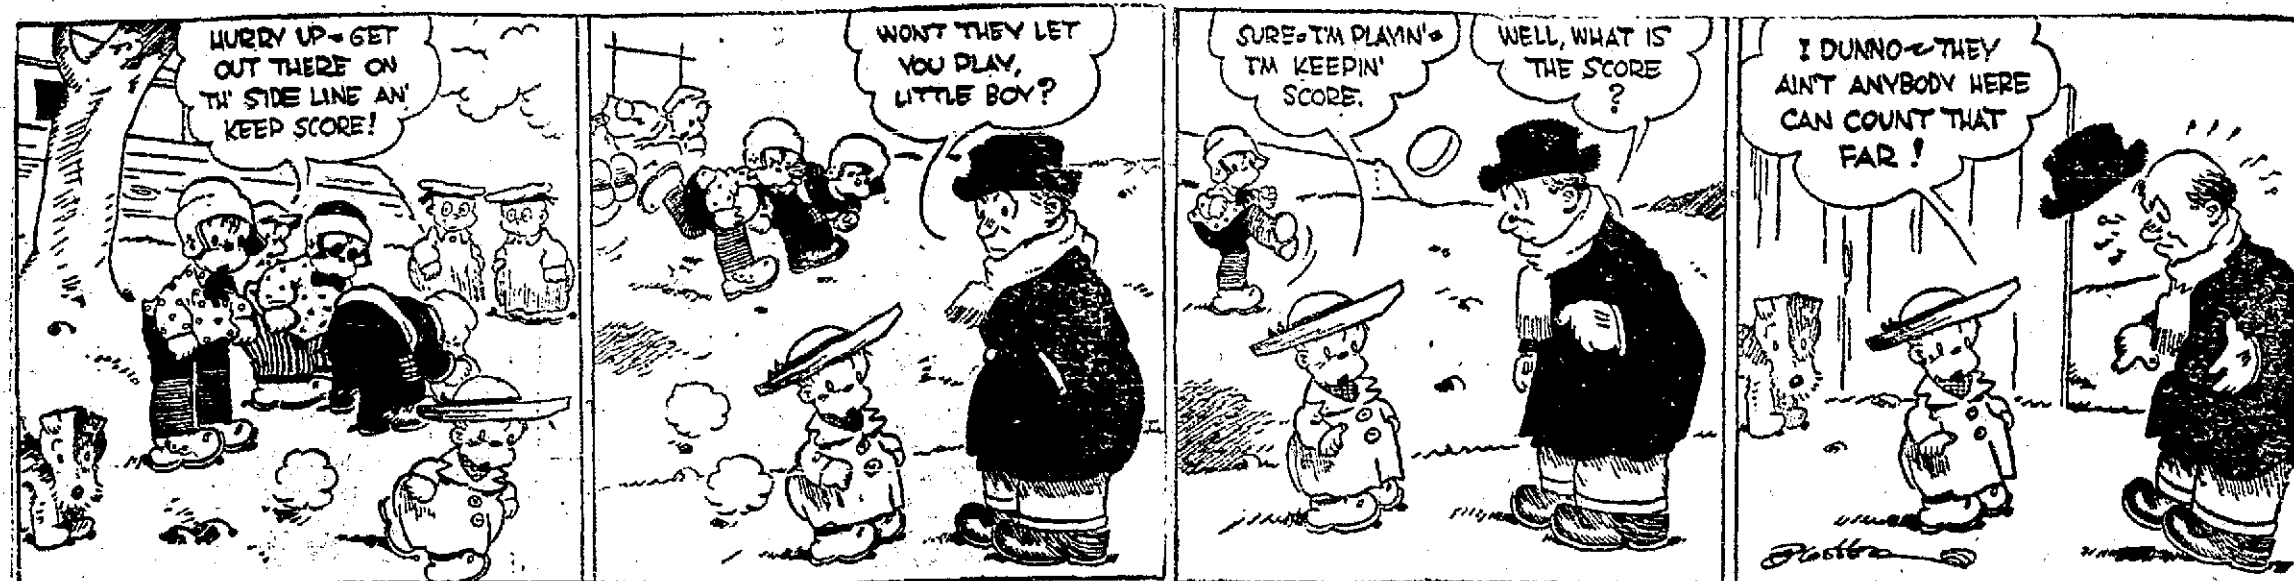

For the United States no one would speak authoritatively of the government's past record toward China. The particular way in which these general principles are to be applied to the present situation probably will remain unresolved until the negotiations have gone much further than it is taken for granted that the "open door" will remain a basic consideration in any plan of American procedure.

In emphasizing their readiness to work for China's economic emancipation, the British spokesmen indicated that Great Britain had actually been far in advance of other nations in offering to relinquish extra territorial jurisdiction in China as soon as that country was sufficiently developed to insure the safety of foreigners and British nationals.

They recalled that the point was stated in the treaty made 18 years ago by Great Britain with China.

A carefully considered statement of the British attitude toward China, made by a high authority, said that generally speaking Great Britain

MERGER PLANNED

Six Luther Leagues of Northwestern Ohio Involved

A merger of the six Luther League organizations of northwestern Ohio will be formed soon, in accord with reports from the fall convention of the League of District No. 3, held at Convo, attended by Mr. and Mrs. H. A. Slonecker, Misses Marguerite Moyer, Gladys Baker, Ethel Newell, Margaret Bogart, Ruth Finkle, Grace Kruse and Rev. W. C. Spayde of Lima, who returned Thursday night.

H. A. Slonecker is the president, Miss Moyer, secretary and Miss Kruse the treasurer of the district organization. The merger to be effected will coincide with the territory covered by the Northwestern Conference of the Synod of Ohio of the United Lutheran church in America.

Interesting discussions of the so-

cial and devotional phases of Luther League work were had in the Convo convention. The principal address was given by the Rev. John W. Berger of Wapakoneta.

Arguments will be heard in the court of appeals Monday in the case of Maude Michael against Robert Davis, as administrator of the estate of Joseph Wooley, deceased.

Miss Michael, who served as Wooley's housekeeper, is contending that he left her his entire estate. Wooley left no will to decide the claim. At least, no such document was ever located.

Relatives of Wooley and of his wife are contesting the estate with Miss Michael, in an endeavor to secure the money and property. Wooley's estate is valued at more than \$75,000. His wife died a short time before he passed away.

POSTMASTER NAMED

WASHINGTON—Postmasters to-day confirmed by the senate included Myron C. Cox at Fremont, Ohio.

SPENCERVILLE WOMAN FALLS DEAD IN FRONT OF HER OWN RESIDENCE

SPENCERVILLE — (Special) — Mrs. Charles Baum, 60, widely-known resident of this town, dropped dead at her home here Wednesday. She had been downtown upon an errand and returning, was stricken when in front of her residence.

Mrs. Baum is the mother of Charles and Earl Baum, both of Lima. Besides the two sons, she is survived by several other children.

MUTT AND JEFF—DOESN'T JEFF THINK OF THE SILLIEST THINGS?

By BUD FISH

BRINGING UP FATHER—

By McMAN

SHORT SHAVINGS

John Reed went hunting with friends and bet them he would get a rabbit with his first three shots. But all he did was to give the rabbits a bad scare. "I found," he says, "they had removed the shot from my shells."

Jim Dugan went to a dentist who put a roll of cotton in his mouth and said, "Don't take that out." A moment later the dentist turned

back to him and said, "I thought I told you not to take that out." "I didn't," said Dugan. "I swallowed it."

Jim Grubb, tenor, met a friend who was telling about a restaurant where two sandwiches and two cups of coffee cost \$3.75. Grubb asked where it was. "I just want to know in a general way where it is," he says, "so I can avoid it."

Tom Townsend was on his way home late at night when a night-watchman on his street stopped him and asked, "What's the matter?" "Nothing's the matter," he said, "I was just singing 'All by Myself.'"
